Introduction

The City of Bayswater is committed to ensuring community members who are at risk of or experiencing homelessness have the information they need to connect to free community services.

Homelessness includes:

- Rough sleeping
- Stays in supported accommodation for the homeless
- Couch-surfing
- Living in boarding and rooming houses without private facilities and security of tenure
- Heavy reliance on short-term stays in motels, hotels and other forms of temporary lodging.

The City of Bayswater is committed to working in collaboration with local service providers, businesses, community groups, and state and local government authorities to address local homelessness and offer the support people need.

This resource provides useful links to help those at risk of or experiencing homelessness.

Hub Connections

Poverty, hardship and homelessness can affect anyone at any time in their life, often as a result of circumstances beyond their control. Many people may not know where to find help.

If you see or know someone who may need support, consider informing them about the City’s Hub Connections program at Morley Library. The City of Bayswater Hub Connections program is led by a group of caring volunteers who help connect residents to information, community services and support groups without judgement.

We understand there are times in life where you may struggle and need a helping hand. Trained City of Bayswater Hub Connector volunteers are available to listen and help. Volunteers can provide information and assist with connecting you to a community service provider that matches your needs.

City of Bayswater Rangers and Security

The City of Bayswater Rangers and Security team provides services helping make our City a safer place for everyone to enjoy.

Security officers are compassionate people who are out in the community connecting with people who are sleeping rough.

A key service is the 24-hour mobile security patrol which can be contacted on 1300 360 333 for non-emergencies, such as disorderly conduct, loitering, noise complaints, etc.

While the City's Security Officers hold relevant licences and qualifications in security operations, it is important to note they do not hold the same powers as police officers.
