

TOWN PLANNING SCHEMES AND DEEMED PROVISIONS FOR LOCAL PLANNING SCHEMES

Planning and Development (Local Planning Schemes) Regulations 2015

The *Planning and Development (Local Planning Schemes) Regulations 2015* were gazetted on 25 August 2015 and have taken effect on 19 October 2015, replacing the Town Planning Regulations 1967.

The regulations are a major part of Western Australia's planning reform agenda, affecting arrangements for local planning strategies and town planning schemes and amendments.

In addition to a Model Scheme Text, the regulations have now introduced a set of deemed provisions, which automatically apply to every town planning scheme in WA from 19 October 2015. The deemed provisions override certain clauses in the City's Town Planning Schemes No. 23 and 24. Those clauses have been shown as 'strikethrough' in the scheme texts and reference has been made to the relevant clause in the deemed provisions.

Regulation 10(6) of the *Planning and Development (Local Planning Schemes) Regulations 2015* allows additional provisions in local planning schemes, which supplement the deemed provisions.

There are several clauses in the deemed provisions where supplemental provisions can exist, however for the case of the City of Bayswater's Town Planning Schemes No. 23 and 24, the only supplemental provisions are for clause 61 of the deemed provisions.

- (b) waive a minimum on-site parking requirement that applies to development.
- (2) The local government must not vary or waive a minimum on-site parking requirement under subclause (1) in relation to development unless the local government is satisfied —

 - (b) that —
 - (i) in the case of a variation — the lower number of car parking spaces would be adequate for the demands of the development, having regard to the likely use of the car parking spaces, the availability of off-site parking facilities and the likely use of alternative means of transport; or
 - (ii) in the case of a waiver — it is not necessary for car parking spaces to be provided as part of the development, having regard to the availability of off-site parking facilities and the likely use of alternative means of transport.

- (2) If the local government gives a notice of apportionment under subclause (1)(b), then —

hereinafter in this Clause referred to as 'existing advertisements', may, except as otherwise provided, continue to be displayed or to be erected and displayed in accordance with the licence or approval as appropriate.

5.6.3 Consideration of Applications

Without limiting the generality of the matters which may be taken into account when making a decision upon an application for planning approval to erect, place or display an advertisement, Council shall examine each such application in the light of the objectives of the Scheme and with particular reference to the character and amenity of the locality within which it is to be displayed, including its historic or landscape significance and traffic safety, and the amenity of adjacent areas which may be affected.

5.6.4 Exemptions from the Requirement to Obtain Planning Approval

Subject to the provisions of Main Roads (Control of Signs) Regulations 1983 and notwithstanding the provision of clause 5.6.1.1, the Council's prior planning approval is not required in respect of those advertisements listed in a schedule in Appendix 8 which for the purpose of this Clause are referred to as 'exempted advertisements'. The exemptions listed in the schedule do not apply to land, buildings, objects, structures and places included on the Heritage List or within a heritage precinct established or designated under ~~Clause 5.1 and 5.2 of the Scheme~~ clauses 8, 9 and 13A of the deemed provisions.

5.6.5 Discontinuance

Notwithstanding the scheme objectives and sub-clause 5.6.4, where the Council can demonstrate exceptional circumstances which cause an exempted or existing advertisement to seriously conflict with the objectives of this clause, it may by notice in writing (giving clear reasons) require the advertiser to remove, relocate, adapt, or otherwise modify the advertisement within a period of time specified in the notice.

5.6.6 ~~Derelict or Poorly Maintained Signs~~

~~Where, in the opinion of the Council, an advertisement has been permitted to deteriorate to a point where it conflicts with the objectives of the Scheme or it ceases to be effective for the purpose for which it was erected or displayed, Council may by notice in writing require the advertiser to:~~

- ~~a) — repair, repaint or otherwise restore the advertisement to a standard specified by Council in the notice; or~~
- ~~b) — remove the advertisement.~~

5.6.7 ~~Notices~~

~~5.6.7.1 'The advertiser' shall be interpreted as any one person or any group comprised of the landowner, occupier, licensee or other person having an interest in or drawing benefit from the display of the advertisement concerned.~~

~~5.6.7.2 Any notice served in exceptional circumstances pursuant to sub-clause 5.6.5 or 5.6.6 shall be served upon the advertiser and shall specify:~~

- ~~a) — The advertisement(s) the subject of the notice;~~
- ~~b) — Full details of the action or alternative courses of action to be taken by the advertiser to comply with the notice; and~~
- ~~c) — The period, not being less than 60 days, within which the action specified shall be completed by the advertiser.~~

~~5.6.7.3 Any person upon whom a notice is served pursuant to this Clause may within a period of 60 days from the date of the notice appeal to the Town Planning Appeal Tribunal in accordance with Part V of the Act, and where any such appeal is lodged the effect of the notice shall be suspended until the decision to uphold, quash or vary the notice is known and shall thereafter have effect according to that decision.~~

(Replace with clause 80 of the Deemed Provisions for Local Planning Schemes)

5.6.8 Scheme to Prevail

Where the provisions of this Clause are found to be at variance with the provisions of the Council's Signs, Hoardings and Bill Posting Local Laws, the provisions of the Scheme shall prevail.

5.6.9 Enforcement and Penalties

The offences and penalties specified in Clause 2.2 of the Scheme apply to the advertiser in this Clause.

PART 6 RESERVES

6.1 METROPOLITAN REGION SCHEME RESERVES

The land shown as 'Metropolitan Region Scheme Reserves' or 'Regional Reserves' on the Scheme Map are lands reserved under the Metropolitan Region Scheme and are shown on the Scheme Map in order to comply with the Metropolitan Region Town Planning Scheme Act 1959, as amended. Those lands are not reserved by this Scheme. The provisions of the Metropolitan Region Scheme continue to apply to such reserves.

6.2 LOCAL AUTHORITY - SCHEME RESERVES

The land shown as 'Scheme Reserves' on the Scheme Map, hereinafter called 'Local Reserves' are lands reserved under the Scheme for the purposes shown on the Scheme Map.

6.3 DEVELOPMENT OF LOCAL RESERVES

Subject to clause 6.4, a person shall not commence or carry out any development on a local reserve, other than the erection of a boundary fence, without first applying for and obtaining Council's planning approval.

6.4 MATTERS TO BE CONSIDERED BY COUNCIL

In deciding whether or not to grant its planning approval under clause 6.3 above, Council shall in addition to the matters specified in ~~clause 3.6.1~~ clause 67 of the deemed provisions, have regard to the ultimate purpose intended for the reserve and shall in the case of land reserved for the purposes of a public authority confer with that authority.

- Business
- Office
- Service Station
- Showroom/Warehouse

Industrial Zones

7.1.2 The zones are delineated and depicted on the Scheme Map according to the legend thereon.

7.2 ZONING TABLES

7.2.1 The Zoning Tables (Tables 1 and 3) indicate, subject to the provisions of the Scheme, the uses permitted in the Scheme area in the various zones (Table 1) or in the special control areas contained within the Maylands Activity Centre Zone (Table 3). The permissibility of any uses listed in Tables 1 and 3 is determined by cross reference between the list of use classes on the left hand side of tables and the list of zones or special control areas at the top of the Zoning Tables.

7.2.2 The symbols used in the cross reference in the Zoning Table have the following meanings:

‘P’ means that the use is permitted by the Scheme providing the use complies with the relevant development standards and the requirements of the Scheme;

'D' means that the use is not permitted unless the local government has exercised its discretion by granting planning approval;

'A' means that the use is not permitted unless the local government has exercised its discretion by granting planning approval after giving special notice in accordance with ~~clause 3.3~~ clauses 64 and 64A of the deemed provisions;

'X' means the use is not permitted by the Scheme.

7.2.3 Where in the Zoning Table a particular use is mentioned it is deemed to be excluded from any other use class which by its more general terms might otherwise include such particular use.

7.2.4 If the use of the land for a particular purpose is not specifically mentioned in the Zoning Table and cannot reasonably be determined as falling within the interpretation of one of the use classes the Council may:

- a) determine by Absolute Majority that the use is consistent with the objectives and purpose of the particular zone and is therefore permitted; or
- b) determine by Absolute Majority that the proposed use may be consistent with the objectives and purpose of the zone and thereafter follow procedures of ~~clause 3.3~~ clause 64 and 64A of the deemed provisions in considering an application for planning approval; or
- c) determine that the use is not consistent with the objectives and purpose of the particular zone and is therefore not permitted.

7.2.5 Special Control Areas contained within Part 10 may modify the permissibility of particular uses over particular sites, as per the Special Control Area provisions contained within Appendix 10 for that particular site or area.

7.3 ADDITIONAL USES

An Additional Use is a land use that is permitted on a specified portion of land in addition to the uses already permitted in the zone that applies to the land.

Notwithstanding anything contained within the Zoning Table, the land specified in Appendix 2 may, subject to compliance with any condition specified in the appendix with respect to the land, be used for the purpose set against that land. The use so specified is in addition to the other uses permitted in the zone in which the land is situated unless any of those uses are excluded or modified by a condition specified in that appendix.

PART 8 GENERAL DEVELOPMENT REQUIREMENTS

8.1 DEVELOPMENT STANDARDS TABLE

- 8.1.1 The Development Standards Table contained in Table No 2 identifies the development standards applicable to the various uses specified in the Table. Subject to the provisions of this Scheme, no person shall develop or use any land or building in any zone within the Scheme Area for any of the purposes mentioned in the Zoning Table unless such development or building is in conformity with the provisions of the Scheme and the standards set out in the Development Standards Table.

Where a particular requirement is not readily determined from the Table, such requirement shall be determined by the Council in accordance with Clause 8.2.1.

- 8.1.2 Special Control Areas contained within Part 10 may modify the development standards for particular uses over particular sites, as per the Special Control Area provisions contained within Appendix 10 for that particular site
- 8.1.3 The development standards specified for the Morley Activity Centre zone as set out in Schedule 1 prevail where inconsistencies arise with other provisions in this scheme.

8.2 DISCRETION TO MODIFY DEVELOPMENT STANDARDS

- 8.2.1 Except for development in respect of which the Residential Design Codes apply under this Scheme, if a development the subject of an application for planning approval does not comply with a development standard prescribed by the Scheme with respect to minimum lot sizes, building height, setbacks, site coverage, car parking, landscaping and related matters, the Council may, notwithstanding that non-compliance, approve the application unconditionally or subject to such conditions as the Council thinks fit. The power conferred by this clause may only be exercised if the Council is satisfied that:

- a) approval of the proposed development would be consistent with the orderly and proper planning of the locality and the preservation of the amenities of the locality; and
- b) the non-compliance will not have any adverse effect upon the occupiers or users of the development or the inhabitants of the locality or upon the likely future development of the locality.

8.3 GENERAL DEVELOPMENT STANDARDS

8.3.1 Height Restrictions

- 8.3.1.1 For the purpose of development within the Residential zone, building height in accordance with the requirements of the Residential Design Codes.
- 8.3.1.2 For the purpose of development within an Industrial or Commercial zone, no person shall construct a building of more than two storeys being 9.0 metres in wall height and no more than 12.0 metres in height from the ground level

to the roof pitch, within the Scheme Area unless the Council considers the building will not negatively affect the amenity of the surrounding area.

- 8.3.1.3 For all other development within land zoned or reserved no person shall construct a building of more than two storeys being 6.0 metres in wall height and no more than 9.0 metres from the ground level to the top of the roof pitch, within the Scheme Area unless the Council considers the building will not negatively affect the amenity of the surrounding area.

8.3.2 Traffic Entrances

8.3.2.1 The Council may -

- a) refuse to permit more than one vehicular entrance or exit to or from any lot;
- b) require separate entrances and exits; or
- c) require that entrances and exits be placed in positions nominated by it so as to avoid or to reduce traffic hazards.

8.3.2.2 Primary Regional Roads, Other Regional Roads and other Major Roads

Access for vehicles shall not be permitted directly to or from Primary Regional Roads or Other Regional Roads nor other major roads determined by the Council, where access is available from side or rear streets or from rear rights-of-way. An unpaved right-of-way shall be paved and drained at the cost of the developer to the extent considered necessary by the Council. Council will determine the location of access and egress points in order to preclude or reduce traffic hazards. Where, by virtue of the configuration or disposition of the lesser road, or where the applicant proves that the insistence of such a condition will cause undue hardship, the Council may recommend to the Western Australian Planning Commission that access and egress to and from a Primary Regional Road or Other Regional Road, in the particular situation, should be permitted.

8.3.3 Setbacks to Primary Regional Roads & Other Regional Roads

Where a lot has a frontage to a road reserved under the Metropolitan Region Scheme as amended, the Council may allow all or part of any existing or proposed widening of that road reservation to be included within the prescribed setback area if:

- a) The portion of the lot required for the widening of the road reservation is transferred to the Crown free of all costs;
- b) The portion of the lot within the prescribed setback area is only used for the purposes of pedestrian access, landscaping and as a means of access to the lot; and
- c) Only the landscaped area of the prescribed setback area between the building and the new street alignment is included as landscape provision.

8.3.4 Corner Lot Setbacks

The prescribed front setback on a lot at the corner of two or more streets shall be to the more important road and the prescribed side setback to the less important road unless otherwise determined by Council. Consideration shall be given to the type of development proposed, the extent of traffic movement generated, the importance of the abutting roads, the shape of the lot and other related considerations in determining the more important road.

8.3.5 Visual Truncation of Corner Lots and Vehicular Access ways

APPENDIX 10 - SPECIAL CONTROL AREAS

SPECIAL CONTROL AREA 1 – MAIN STREET PRECINCT

Character Statement

The Main Street Precinct is a pedestrian-scaled, vibrant, mixed use area. The precinct provides a variety of 'fine grained' commercial and retail uses on the ground floor to service the local community and visitors. Residential and office land uses are provided on upper levels of buildings. The scale of buildings in the Main Street Precinct will ensure that building bulk does not dominate the streetscape. The Precinct provides the opportunity to live, work and socialise in an exciting, inner-city style place.

Objectives

- Facilitate high quality development that complements the character and heritage of the precinct.
- Provide for active street frontages.
- Encourage residential land uses as a vital component of the Main Street Precinct, whilst protecting ground floor active uses from being displaced by residential land uses.
- Encourage pedestrians and public transport use.
- The demolition of heritage-listed and character buildings should be avoided wherever possible.

Development Standards – Main Street Precinct

Massing	Height
<i>Minimum height</i>	<ul style="list-style-type: none"> A minimum height of 2 storeys is required.
<i>Maximum height</i>	<ul style="list-style-type: none"> A maximum height of 6 storeys is permitted to an overall height of 25 metres above natural ground level.
	<ul style="list-style-type: none"> Height in storeys is determined from the ground floor at the primary street frontage. A mezzanine floor is not considered to be a separate storey. Any basement level car park is not included in overall building height provided that the car park is wholly below ground level at the street frontage(s).
<i>Street Facades</i>	<ul style="list-style-type: none"> The street facades of buildings are to have a maximum height of 2 storeys, with additional storeys further setback from the street (see setbacks below). Buildings situated on the corner of 2 gazetted streets may exceed the maximum street façade height by an additional storey by providing an architectural design element designed to reinforce the street corner to a maximum height of 15 metres above natural ground level. The architectural design element is to only extend 5 metres from the corner of the building. Ground floor levels for retail and commercial tenancies fronting a primary or secondary street shall be no more than 500mm above the existing footpath level and are not to be below the existing footpath level.
<i>Street setbacks</i>	<p>Setbacks</p> <ul style="list-style-type: none"> Building facades are required to have a nil street setback for the first 2 storeys addressing Seventh Avenue, Eighth Avenue, Ninth Avenue, Whatley Crescent and/ or Guildford Road. Minor recesses of up to 1.5 metres from the front boundary to a maximum 3 metres in length are permitted to achieve architectural articulation at the street edge.
<i>Laneway setbacks</i>	<ul style="list-style-type: none"> A minimum 1 metre setback is required to a laneway to a maximum of 2 storeys. A reduced setback may be permitted where the laneway width is a minimum of 6 metres. Street and/or laneway setbacks may be varied if high quality public spaces are provided between the street and building façade on the subject site.
<i>3rd and 4th storey setbacks</i>	<ul style="list-style-type: none"> Any level above 2 storeys is required to be set back a minimum of 5 metres from a street boundary to the building line and 3 metres from a laneway boundary to the building line.
<i>5th and 6th storey setbacks</i>	<ul style="list-style-type: none"> Any level above 4 storeys shall be set back a minimum of 1.5 metres from the building line of the fourth storey.
<i>Side setbacks</i>	<ul style="list-style-type: none"> A nil setback is permitted to the side boundary of any abutting developable property for a maximum of 4 storeys. Any level above 4 storeys is required to be set back a minimum of 5 metres from the side boundary of any abutting developable property to the building line of the upper storey.
<i>Rear setbacks</i>	<ul style="list-style-type: none"> A nil setback is permitted to the rear boundary of any abutting developable property for a maximum of 2 storeys. Any level above 2 storeys is required to be set back a minimum of 5 metres from the building line of the 2nd storey as measured to the building line of the upper storey.
Land Use	<ul style="list-style-type: none"> Land use permissibility shall be in accordance with Table 3.
	<ul style="list-style-type: none"> Residential land uses are not permitted on the ground floor fronting the primary or secondary street, but may be permitted to address a laneway frontage where they are designed to be adapted to accommodate commercial uses in the future in the opinion of the City.

	<ul style="list-style-type: none"> Land uses are required to be configured to promote land use compatibility and reduce the potential for land use related conflict.
Character	<ul style="list-style-type: none"> Building facades facing a street are required to be built predominantly in the traditional parapet style for the first 2 storeys to reflect the general character of the Main Street Precinct. Any 2nd storey wall or balcony fronting a street is to complement and be sympathetic to existing shop parapets along the street frontage. Building frontages and façades greater than 10 metres in length as they present to streets or laneways are to be articulated, coloured and detailed to present as individual facades to the satisfaction of the City. The individual facade length may be increased where it can be demonstrated that the increased façade length is: <ul style="list-style-type: none"> a) Built on a single existing lot with a frontage of 20 metres or less; or b) Sufficiently articulated, coloured or detailed in the opinion of the City; or c) Sufficient justification has been provided to the satisfaction of the City. Where face brick is proposed as the material of wall construction, bricks are not to be of a limestone colour unless used for minor architectural detailing. Footpaths along adjacent primary or secondary streets are to be sheltered by awnings. The awnings are to: <ul style="list-style-type: none"> d) Be continuous structures over footpaths. e) Project to within 0.6 metres of the road kerb and have a consistent width (subject to the below conditions). f) Not be built over existing or possible street parking bays and are to accommodate the unimpeded growth of any street tree. g) Be cantilevered or suspended. Post or column supports are not permitted. h) Have a clearance of at least 2.75 metres above footpath level. i) Provide continuous cover at abutting buildings. Where one awning abuts another, the connection is to be treated so as to prevent the penetration of rain. j) Preferably be lightly framed with fine design lines. The maximum height of any fascia to an awning shall be 300mm, with signage prohibited on top of the fascia. <p>The City may vary these requirements as necessary to accommodate specific site circumstances.</p> A minimum of 60% of the wall area facing a street at the ground floor level is to be devoted to permeable glazing and/or bi-fold doors. The use of reflective or obscure glazing is not permitted on ground floor street frontages. Exterior shading devices are to be used where it is necessary to protect windows from direct sunlight. These devices are to be consistent. An architectural design element is required to reinforce any adjacent street corner. Existing heritage conservation plans shall be considered in any new development.

Car Parking and Access	<ul style="list-style-type: none"> Where the property abuts a laneway, vehicle access to the property is to be from the laneway and not the street frontage (where practical). Where the property abuts a secondary street but not a laneway, vehicle access to the property is to be from the secondary street and not the primary street frontage (where practical).
Private Space	<ul style="list-style-type: none"> A terrace, balcony or courtyard is to be provided at a minimum of 12m² for each residential dwelling and be connected to an internal living space. 10% of the net lettable area (NLA) of commercial tenancies located on upper levels (excluding the ground level) is to be provided as private open space. The private open space is to be connected to the commercial tenancy. The minimum dimension (width and length) for a terrace, balcony or courtyard is 2.5 metres. SPECIAL CONTROL AREA 2 – GUILDFORD ROAD PRECINCT

Character Statement

The Guildford Road Precinct provides for large format retail uses along with local services, offices and residential in a mixed-use format. The Guildford Road Precinct will be characterised by larger scaled buildings built on landmark development sites. Large format land uses such as supermarkets will be sleeved with ‘fine-grained’ commercial land uses to provide for active ground level facades.

Objectives

- Encourage medium to large scale development characterised by a mix of high quality commercial and residential uses.
- Promote the retention of existing large format retail uses such as supermarkets in a compatible mixed use format.
- Encourage active land uses at the street level.
- Provide convenient and visible vehicle access, whilst reducing the visual dominance of car parking on the streetscape.
- Establish a sense of arrival to the Maylands Activity Centre through the development of landmark buildings on strategic development sites.

SPECIAL CONTROL AREA 3 – TOWN CENTRE EXTENSION PRECINCT

Character Statement

The Town Centre Extension Precinct is intended to provide for the incremental growth of the activity centre over time. The Precinct is anticipated to change over time from a predominately residential area to a mixed use, 'main street style' place. The urban design provisions reinforce the urban character of the adjacent Main Street Precinct and will facilitate a mix of appropriate land uses including residential, retail, service and office uses.

Objectives

- Accommodate residential uses whilst providing the opportunity for the incremental extension of the Main Street Precinct over time.
- Facilitate high quality development that complements the character and heritage of the precinct.
- Facilitate development similar to the Main Street Precinct.
- Encourage pedestrians and public transport use.
- Encourage the establishment of home-based businesses and consultancy services adjacent to the Main Street Precinct.
- The demolition of heritage-listed and character buildings should be avoided wherever possible

SPECIAL CONTROL AREA 4 – CHARACTER RESIDENTIAL PRECINCT

Character Statement

Development within the Character Residential Precinct will principally be residential in nature. The precinct has an eclectic mix of building styles including Federation, Queen Anne, California bungalows and workers cottages. The traditional building forms are typified by pitched roof forms, dominant front verandahs and vertical emphasis to windows and openings. New developments should enhance the identity and character of the Precinct. The precinct provisions will provide opportunities to live in close proximity to the Main Street Precinct in a low-rise residential form. Whilst influenced by traditional styles and local character, the Precinct is bordered by more intensive urban precincts and so the amenity of the area will be different to that found in suburban residential areas.

Objectives

- Retain and enhance the identity and character of the Precinct.
- Ensure that new development complements the character of the Precinct.
- Provide opportunities to live in close proximity to the Main Street Precinct in a low-rise residential form.
- Provide for appropriate residential development opportunities.
- Demolition of heritage-listed and character buildings should be avoided wherever possible.

SPECIAL CONTROL AREA 15:

Meltham Station Precinct, as depicted in the following map:

Purpose

The intent of the Meltham Station Precinct Structure Plan is to establish an urban residential precinct, with supporting commercial uses, of a density that supports and optimises the ongoing use of the existing Meltham Train Station.

New development will be of a contemporary character that respects and reflects the colours, materials and architectural elements of the existing and surrounding area. New development will be of a form that enables a significant increase in the local resident population but is designed to enhance the streetscape and establish an appropriate transition in scale between the Meltham Station Precinct and its surroundings.

Relationship to Other Development Standards

Development is to comply with the Scheme, including the Residential Design Codes and this special control area.

Where there are inconsistencies between the development standards and land use permissibility specified in this special control area and other parts of the Scheme, including the Residential Design Codes or any Local or State Planning Policy, the development standards specified in this special control area shall prevail.

The City may vary the provisions applicable to the special control area where it is satisfied that the variation will result in a positive outcome consistent with the purpose of the special control area, the objectives of the Meltham Station Precinct Structure Plan and having regard to the matters contained within CI 67 of the Deemed provisions of the Planning and Development (Local Planning Schemes) Regulations 2015. Such discretion will not apply to building height or setbacks unless specified in the relevant sections below.

General Development Requirements

The following development requirements and precinct based development requirements apply to any comprehensive new development, excluding minor alterations, additions or extensions, as determined by the City of Bayswater.

General Development Requirements	
Streetscape – Public Realm	<ul style="list-style-type: none"> Existing street trees shall be retained wherever possible, subject to the health of the tree; or replaced with mature tree if retention is not possible. Notwithstanding the above, street trees shall be provided at a minimum rate of 1 tree per 14m of frontage. Street tree species shall be to the satisfaction of the City of Bayswater. Verge landscaping shall complement the landscape treatment of the adjacent setback area in the case of residential uses at ground floor level.
Built Form	<ul style="list-style-type: none"> Street corners shall be expressed with a distinctive architectural element or treatment. Buildings on corners shall treat each street as a primary street front and present a consistent quality of architectural treatment. Buildings shall incorporate architectural treatments to break up the perceived mass of the building, such as modulation of the built form, horizontal banding, changes in material, colour or pattern.
Architectural Character	<ul style="list-style-type: none"> Materials and colours shall be derived from the materials and colours of the existing buildings in the surrounding areas. Notwithstanding the above, buildings shall incorporate red brick as either a main wall material or, at a minimum, a feature element. Windows shall be vertically proportioned or composed of vertically proportioned glazing panels. The uppermost floor shall be defined with a distinctive change in material, colour or architectural treatment.
Ground Floor Commercial Tenancies	<p>The facades of commercial tenancies that front the street at ground floor are to:</p> <ul style="list-style-type: none"> Incorporate design principles of traditional shopfronts by providing a mix of materials, textures and colours.

	<ul style="list-style-type: none"> • Provide building articulation through the use of indented entrances, contrasting elevation and depth to create active ground floor frontages and maintain a pleasant environment for pedestrians. • Provide a balance between glassing and solid materials. • Consider the use of glassing materials. The use of tinted, darkened or mirror glass or any other type of glazing that reduces or impedes visual interaction with the street is prohibited. • Ensure lighting, awning, and sign design and location are considered and complement the design of the façade. • Ensure fire fighting and service infrastructure is to be integrated into the design of the front façade, where required.
End of Trip Facilities	Where the aggregate of the commercial tenancies in a development is 250m ² or more, every commercial tenancy is to have access to an end of trip facility, including a shower/change room, storage/lockers and bike parking.
Design Statement	A design statement addressing the above design elements is to be provided as part of a development application.
Design Review	<p>Applications for any comprehensive new development involving buildings of three storeys or greater, excluding minor alterations, additions or extensions, as determined by the City of Bayswater shall be subject to review by the City's Design Review Panel.</p> <p>In determining such applications, the City shall have regard to the advice of the Design Review Panel.</p>
