Overview

- (i) These financial statements are General Purpose Financial Statements and cover the consolidated operations for City of Bayswater.
- (ii) All figures presented in these financial statements are presented in Australian Currency.

General Purpose Financial Statements

for the year ended 30 June 2014

Understanding Council's Financial Statements

Introduction

Each year, individual Local Governments across Western Australia are required to present a set of audited Financial Statements to their Council and Community in accordance with the Local Government Act 1995 and the Local Government (Financial Management) Regulations 1996.

About the Certification of Financial Statements

The Financial Statements must be certified by the Chief Executive Officer as (i) presenting fairly the Council's financial results for the year and complying with (ii) Australian Accounting Standards and the Local Government Act 1995.

What you will find in the Statements

The Financial Statements set out the financial performance, financial position and cash flows of Council for the financial year ended 30 June 2014.

The format of the Financial Statements is standard across all Western Australian Councils and complies with both the accounting and reporting requirements of Australian Accounting Standards and the requirements as set down in the Western Australian Local Government Accounting Manual.

The Financial Statements incorporate 6 "primary" financial statements:

A Statement of Comprehensive Income -(by Nature or Type)

A summary of Council's financial performance for the year, listing all income & expenses by their "nature or type". This allows users of the financial statements to identify a break up of operating revenues and expenses for the year.

A Statement of Comprehensive Income -(by Program)

A summary of Council's financial performance for the year, listing all income & expenses by "program". This allows users of the financial statements to identify the cost relating to each Council Program and whether or not these costs were recovered from Program revenues.

3. A Statement of Financial Position

A 30 June snapshot of Council's financial position listing its assets & liabilities

4. A Statement of Changes in Equity

The overall change for the year (in dollars) of Council's "net wealth"

5. A Statement of Cash Flows

Indicates where Council's cash came from and where it was spent across operating, investing & financing activities.

6. A Rate Setting Statement

A Statement showing the amount of rates budgeted to be raised during the year to fund the Council's proposed Programs (and any budget surplus/deficit from prior years).

About the Notes to the Financial Statements

The Notes to the Financial Statements provide greater detail and additional information on the 6 Primary Financial Statements.

About the Auditor's Reports

Council's Financial Statements are required to be audited by external accountants (that generally specialise in Local Government)

In Western Australia, the Auditor provides an audit report that provides an opinion on whether the Financial Statements present fairly the Council's financial performance and position.

Who uses the Financial Statements?

The Financial Statements are publicly available documents and are used by (but not limited to) Councillors, Residents and Ratepayers, Employees, Suppliers, Contractors, Customers, the Department of Local Government, and Financiers including Banks and other Financial Institutions.

Under the *Local Government Act 1995* the Financial Statements must be made available at the office of the Council.

General Purpose Financial Statements for the year ended 30 June 2014

Local Government Act 1995

Local Government (Financial Management) Regulations 1996

Statement by Chief Executive Officer

The attached financial report of the City of Bayswater being the annual financial report and supporting notes and other information for the financial year ended 30 June 2014 are in my opinion properly drawn up to present fairly the financial position of the City of Bayswater at 30 June 2014 and the results of the operations for the financial year ended in accordance with the *Australian Accounting Standards* and comply with the provisions of the *Local Government Act 1995* and the regulations under that Act.

Signed as authorisation of issue Tenth day of November 2014

Francesca Lefante BA (Urb & Reg Stud), Grad Dip (Urb & Reg Plan)

CHIEF EXECUTIVE OFFICER

Statement of Comprehensive Income (by Nature or Type) for the year ended 30 June 2014

Notes to the Financial Statements for the year ended 30 June 2014

Note 1: Summary of Significant Accounting Policies

The principal accounting policies adopted in the preparation of the financial report are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation

The financial report is a general purpose financial statement which has been prepared in accordance with Australian Accounting Standards (as they apply to local governments and not-for-profit entities), other authoritative pronouncements of the Australian Standards Board, *Local Government Act 1995* and accompanying regulations. The report has also been prepared on the accrual basis under the convention of historical cost accounting modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

Critical Accounting Estimates

The preparation of a financial report in conformity with Australian Accounting Standards requires the use of certain critical accounting estimates. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances. The results of this experience and other factors combine to form the basis of making judgements about carrying values of assets and liabilities not readily apparent from other sources. Actual results may differ from these estimates.

(b) The Local Government Reporting Entity

All Funds through which the Council controls resources to carry on its functions have been included in the financial statements forming part of this financial report. In the process of reporting on the local government as a single unit, all transactions and balances between those funds (for example, loans and transfers between Funds) have been eliminated. All monies held in the Trust Fund are excluded from the financial statements, but a separate statement of those monies appears at Note 18 to this financial report.

Principles of Consolidation

All entities through which the Council controls resources to carry on its operation have been included in the financial statements. This encompasses:

Main Entity

The Council of the City of Bayswater

Consolidation

The Council of the City of Bayswater The City of Bayswater Child Care Association (Inc.)

(c) Goods and Services Tax

In accordance with recommended practice, revenues, expenses and assets capitalised are stated net of any GST recoverable. Receivables and payables in the Statement of Financial Position are stated inclusive of applicable GST.

(d) Cash and Cash Equivalents

Cash and cash equivalents in the Statement of Financial Position comprise cash at bank and on hand or that are readily convertible

to known amounts of cash and which are subject to an insignificant risk of changes in value.

For the purposes of the Statement of Cash Flows, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts. Bank overdrafts are included as short-term borrowings in current liabilities on the Statement of Financial Position.

(e) Trade and Other Receivables

Collectability of trade and other receivables is reviewed on an ongoing basis. Debts which are known to be uncollectible are written off when identified. An allowance for doubtful debts is raised when there is objective evidence that they will not be collectible.

(f) Inventories

(i) Raw materials and stores, work in progress and finished goods

Raw materials and stores, work in progress and finished goods are stated at the lower of cost and net realisable value. Cost comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Costs are assigned to individual items of inventory on the basis of weighted average costs. Net realisable value is the established selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

(ii) Land Held for resale/capitalisation of borrowing

Land held for resale is stated at the lower of cost and net realisable value. Cost is assigned by specific identification and includes the cost of acquisition, and development and borrowing costs during development. When development is completed borrowing costs and other holding charges are expensed as incurred. Borrowing costs included in the cost of land held for resale are those costs that would have been avoided if the expenditure on the acquisition and development of the land had not been made. Borrowing costs incurred while active development is interrupted for extended periods are recognised as expenses.

Revenue arising from the sale of property is recognised in the operating statement as at the time of signing a binding contract of sale. Land held for resale is classified as current except where it is held as non-current based on the Council's intentions to release for sale.

(g) Fixed Assets

Initial Recognition

All assets are initially recognised at cost. Cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed includes the cost of all materials, direct labour and variable and fixed overheads.

Notes to the Financial Statements for the year ended 30 June 2014

Note 1: Summary of Significant Accounting Policies

Revaluation

Certain asset classes may be revalued on a regular basis such that the carrying values are not materially different from fair value. For infrastructure and other asset classes where no active market exists, fair value is determined to be the current replacement cost of an asset less, where applicable, accumulated depreciation calculated on a basis to reflect the already consumed or expired future economic benefits of the asset.

Increases in the carrying amount arising on revaluation of assets are credited to a revaluation surplus in equity. Decreases that offset previous increases of the same asset are charged against fair value reserves directly in equity; all other decreases are charged to the statement of comprehensive income.

Any accumulated depreciation at the date of revaluation is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset.

Those assets carried at a revalue amount, being their fair value at the date of revaluation less any subsequent accumulated depreciation and accumulated impairment losses, are to be revalue with sufficient regularity to ensure the carrying amount does not differ significantly from that determined using fair value at reporting date.

Mandatory Requirement to Revalue Non-Current Assets

Effective from 1 July 2012, the Local Government (Financial Management) Regulations were amended and the measurement of non-current assets at Fair Value became mandatory.

The amendments allow for a phasing in of fair value in relation to fixed assets over three years as follows:

- (a) for the financial year ending on 30 June 2013, the fair value of all of the assets of the local government that are plant and equipment; and
- (b) for the financial year ending on 30 June 2014, the fair value of all of the assets of the local government –
 - (i) that are plant and equipment; and
 - (ii) that are -
 - (I) land and buildings; or
 - (II) infrastructure;

And

(c) for a financial year ending on or after 30 June 2015, the fair value of all of the assets of the local government.

Thereafter, in accordance with the regulations, each asset class must be revalued at least every 3 years.

In 2013, Council commenced the process of adopting Fair Value in accordance with the Regulations.

Relevant disclosures, in accordance with the requirements of Australian Accounting Standards, have been made in the financial report as necessary.

Land Under Control

In accordance with Local Government (Financial Management) Regulation 16(a), the Council was required to include as an asset (by 30 June 2013), Crown Land operated by the local government as a golf course, showground, racecourse or other sporting or recreational facility of State or regional significance.

Upon initial recognition, these assets were recorded at cost in accordance with AASB 116. They were then classified as Land and revalued along with other land in accordance with the other policies detailed in this Note.

Whilst they were initially recorded at cost, fair value at the date of acquisition was deemed cost as per AASB 116.

Consequently, these assets were initially recognised at cost but revalued along with other items of Land and Buildings at 30 June 2014

Initial Recognition and Measurement between Mandatory Revaluation Dates

All assets are initially recognised at cost and subsequently revalued in accordance with the mandatory measurement framework detailed above.

In relation to this initial measurement, cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the Council includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads.

Individual assets acquired between initial recognition and the next revaluation of the asset class in accordance with the mandatory measurement framework detailed above, are carried at cost less accumulated depreciation as management believes this approximates fair value. They will be subject to subsequent revaluation at the next anniversary date in accordance with the mandatory measurement framework detailed above.

Transitional Arrangements

During the time it takes to transition the carrying value of noncurrent assets from the cost approach to the fair value approach, the Council may still be utilising both methods across differing asset classes.

Those assets carried at cost will be carried in accordance with the policy detailed in the Initial Recognition section as detailed above.

Those assets carried at fair value will be carried in accordance with the Revaluation Methodology section as detailed above,

Early Adoption of AASB 13 - Fair Value Measurement

Whilst the new accounting standard in relation to Fair Value, AASB 13 – Fair Value Measurement only become applicable for the year ended 30 June 2014 (in relation to Council), given the legislative need to commence using Fair Value methodology in the previous reporting period (year ended 30 June 2013) the Council chose to early adopt AASB 13 (as allowed for in the standard).

As a consequence, the principles embodied in AASB 13 – Fair Value Measurement have been applied to the previous reporting period (year ended 30 June 2013).

Land Under Roads

In Western Australia, all land under roads is Crown land, the responsibility for managing which, is vested in the local government.

Notes to the Financial Statements for the year ended 30 June 2014

Note 1: Summary of Significant Accounting Policies

Effective as at 1 July 2008, Council elected not to recognise any value for land under roads acquired on or before 30 June 2008. This accords with the treatment available in Australian Accounting Standard AASB 1051 Land Under Roads and the fact Local Government (Financial Management) Regulation 16 (a)(i) prohibits local governments from recognising such land as an asset.

In respect of land under roads acquired on or after 1 July 2008, as detailed above, Local Government (Financial Management) Regulation 16(a)(i) prohibits local governments from recognising such land as an asset.

Whilst such treatment is inconsistent with the requirements of AASB 1051, Local Government (Financial Management) Regulation 4(2) provides, in the event of such an inconsistency, the Local Government (Financial Management) Regulations prevail.

Consequently, any land under roads acquired on or after 1 July 2008 is not included as an asset of the Council.

Fair Value of Assets and Liabilities

When performing a revaluation, the Council uses a mix of both independent and management valuations using the following as a quide:

Fair Value is the price that Council would receive to sell the asset or would have to pay to transfer a liability, in an orderly (ie unforced) transaction between independent, knowledgeable and willing market participants at the measurement date.

As fair value is a market-based measure, the closest equivalent observable market pricing information is used to determine fair value. Adjustments to market values may be made having regard to the characteristics of the specific asset. The fair values of assets that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data.

To the extent possible, market information is extracted from either the principal market for the asset (ie the market with the greatest volume and level of activity for the asset or, in the absence of such a market, the most advantageous market available to the entity at the end of the reporting period (ie the market that maximises the receipts from the sale of the asset after taking into account transaction costs and transport costs).

For non-financial assets, the fair value measurement also takes into account a market participant's ability to use the asset in its highest and best use or to sell it to another market participant that would use the asset in its highest and best use.

Fair Value Hierarchy

AASB 13 requires the disclosure of fair value information by level of the fair value hierarchy, which categorises fair value measurement into one of three possible levels based on the lowest level that an input that is significant to the measurement can be categorised into as follows:

Level 1

Measurements based on quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2

Measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3

Measurements based on unobservable inputs for the asset or liability.

The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data. If all significant inputs required to measure fair value are observable, the asset or liability is included in Level 2. If one or more significant inputs are not based on observable market data, the asset or liability is included in Level 3.

Market approach

Valuation techniques that use prices and other relevant information generated by market transactions for identical or similar assets or liabilities.

Income approach

Valuation techniques that convert estimated future cash flows or income and expenses into a single discounted present value.

Cost approach

Valuation techniques that reflect the current replacement cost of an asset at its current service capacity.

Valuation techniques

Each valuation technique requires inputs that reflect the assumptions that buyers and sellers would use when pricing the asset or liability, including assumptions about risks. When selecting a valuation technique, the Council gives priority to those techniques that maximise the use of observable inputs and minimise the use of unobservable inputs. Inputs that are developed using market data (such as publicly available information on actual transactions) and reflect the assumptions that buyers and sellers would generally use when pricing the asset or liability and considered observable, whereas inputs for which market data is not available and therefore are developed using the best information available about such assumptions are considered unobservable.

As detailed above, the mandatory measurement framework imposed by the Local Government (Financial Management) Regulations requires, as a minimum, all assets carried at a revalued amount to be revalued at least every 3 years.

(h) Depreciation of Non-Current Assets

All non-current assets having a limited useful life are separately and systematically depreciated over their useful lives in a manner which reflects the consumption of the future economic benefits embodied in those assets. Assets are depreciated from the date of acquisition or, in respect of internally constructed assets, from the time the asset is completed and held ready for use.

Notes to the Financial Statements for the year ended 30 June 2014

Note 1: Summary of Significant Accounting Policies

Capitalisation Threshold:

Plant & Equipment	\$2,000
Computer Equipment	\$2,000
Furniture & Equipment	\$2,000
Building Improvements	\$2,000
Land & Buildings	No Limit

Depreciation is recognised on a straight-line basis, using rates which are reviewed each reporting period. Major depreciation periods are:

Plant Furniture & Equipment Buildings Computer Equipment Work Equipment Toys	5 to 15 years 4 to 10 years 30 to 50 years 3 years 5 to 15 years 3 years
Fleet Vehicles	3 years
Roads Footpaths	50 years
- Concrete	50 years
- Asphalt	25 years
Drains	100 years
Reserves	
- Passive Reserves	100 years
- Medians	50 years
- Civic Gardens	30 years
- Verges	30 years
- Active Reserves	20 years
Street Furniture	
- Crash Barriers	10 years
- Bus Shelters	20 years
- Seats	10 years
- Parking Signs	5 years
- Street Name Plates	10 years

The assets residual value and useful lives are reviewed and adjusted if appropriate, at the end of each reporting period. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in the Statement of Comprehensive Income. When revalued assets are sold, amounts included in the revaluation surplus relating to that asset are transferred to retained earnings.

(i) Financial Instruments

Initial Recognition and Measurement

Financial assets and financial liabilities are recognised when the Council becomes a part to the contractual provisions to the instrument. For financial assets, this is equivalent to the date that the Council commits itself to either the purchase or sale of the asset (i.e. trade date accounting is adopted).

Financial instruments are initially measured at fair value plus transaction costs, except where the instrument is classified 'at fair value through profit or loss', in which case transaction costs are expensed to profit or loss immediately.

Classification and Subsequent Measurement

Financial instruments are subsequently measured at amortised cost using the effective interest rate method or cost.

Fair value represents the amount for which an asset could be exchanged or a liability settled, between knowledgeable, willing parties. Where available, quoted prices in a active market are used to determine fair value. In other circumstances, valuation techniques are adopted.

Amortised cost is calculated as:

- (a) the amount is which the financial asset or financial liability is measured at initial recognition;
- (b) less principal repayments;
- (c) plus or minus the cumulative amortisation of the difference, if any, between the amount initially recognised and the maturity amount calculated using the effective interest rate method; &
- (d) less any reduction for impairment.

The effective interest method used is to allocate interest income or interest expense over the relevant period and is equivalent to the rate that exactly discounts estimated future cash payments or receipts (including fees, transaction costs and other premiums of discounts) through the expected life (or when this cannot be reliably predicted, the contractual term of the financial instrument to the net carrying amount of the financial asset or financial liability. Revisions to expected future cash flows will necessitate an adjustment to the carrying value with a consequential recognition of an income or expense in profit or loss.

(i) Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are financial assets held for trading. A financial asset is classified in this category if acquired principally for the purpose of selling in the short term. Derivatives are classified as held for trading unless they are designated as hedges. Assets in this category are classified as current assets.

(ii) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for those with maturities greater than 12 months after the Statement of Financial Position date which are classified as non-current assets. Loans and receivables are included in trade and other receivables in the Statement of Financial Position.

(iii) Held-to-maturity investments

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturities that the Council's management has the positive intention and ability to hold to maturity. If Council were to sell other than an insignificant amount of held-to-maturity financial assets, the whole category would be tainted and reclassified as available-for-sale. Held-to-maturity financial assets are included in non-current assets, except for those with maturities less than 12 months from the reporting date, which are classified as current assets.

(iv) Available-for-sale financial assets

Available-for-sale financial assets, comprising principally marketable equity securities, are non-derivatives that are either designated in this category or not classified in any of the other

Notes to the Financial Statements for the year ended 30 June 2014

Note 1: Summary of Significant Accounting Policies

categories. They are included in non-current assets unless management intents to dispose of the investment within 12 months of the Statement of Financial Position date. Investments are designated as available-for-sale if they do not have fixed maturities and fixed or determinable payments and management intends to hold them for the medium to long term.

(v) Financial Liabilities

Non-derivative financial liabilities (excluding financial guarantees) are subsequently measured at amortised cost.

Impairment

At the end of each reporting period, the Council assesses whether there is objective evidence that a financial instrument has been impaired. In the case of available-for-sale financial instruments, a prolonged decline in the value of the instrument is considered to determine whether impairment has arisen. Impairment losses recognised in the Statement of Comprehensive Income.

(j) Fair Value Estimation

The fair value of financial assets and financial liabilities must be estimated for recognition and measurement or for disclosure purposes.

The fair value of financial instruments traded in active markets is determined using valuation techniques. Council uses a variety of methods and makes assumptions that are based on market conditions existing at each balance date. Quoted market prices or dealer quotes for similar instruments are used for long-term debt instruments held. Other techniques, such as estimated discounted cash flows, are used to determine fair value for the remaining financial instruments.

The nominal value less estimated credit adjustments of trade receivables and payables are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Council for similar financial instruments.

(k) Provisions

Provisions are recognised when the Council has a present legal or constructive obligation as a result of past events; it is more likely than not that an outflow of resources will be required to settle the obligation and the amount has been reliably estimated. Provisions are not recognised for future operating losses. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

(I) Leases

Leases of property, plant and equipment where the Council has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lease's inception at the lower of the fair value of the leased property and the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in other long term payables. Each lease payment is

allocated between the liability and finance charges so as to achieve a constant rate on the finance balance outstanding. The interest element of the finance cost is charged to the Statement of Comprehensive Income over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The property, plant and equipment acquired under finance leases are depreciated over the shorter of the asset's useful life and the lease term. Lease payments under operating leases, where substantially all the risks and benefits remain with the lessor, are charged as expenses in the periods in which they are incurred.

(m) Impairment

In accordance with Australian Accounting Standards the Council's assets, other than inventories, are tested annually for impairment. Where such an indication exists, an estimate of the recoverable amount of the asset is made in accordance with AASB 136 Impairment of Assets and appropriate adjustments made. Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. Impairment losses are recognised in the Statement of Comprehensive Income.

For non-cash generating assets of the Council such as roads, drains, public buildings and the like, value in use is represented by the asset's written down replacement cost.

(n) Trade and Other Payables

Trade and other payables are carried at amortised cost. They represent liabilities for goods and services provided to the Municipality prior to the end of the financial year that are unpaid and arise when the Municipality becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured and are usually paid within 30 days of recognition.

(o) Interest-bearing Loans and Borrowings

All loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs.

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method. Fees paid of the establishment of loan facilities that are yield related are included as part of the carrying amount of the loans and borrowings.

Borrowings are classified as current liabilities unless the Council has an unconditional right to defer settlement of the liability for at least 12 months after the Statement of Financial Position date. Borrowing costs are recognised as an expense when incurred except where they are directly attributable to the acquisition, construction or production of a qualifying asset. Where this is the case, they are capitalised as part of the cost of the particular asset.

Notes to the Financial Statements for the year ended 30 June 2014

Note 1: Summary of Significant Accounting Policies

(p) Employee Benefits

The provisions for employee benefits relates to amounts expected to be paid for long service leave, annual leave, wages and salaries and are calculated as follows:

Wages, Salaries, Annual Leave and Long Service Leave (Short-term Benefits)

The provision for employees' benefits wages, salaries, annual leave and long service leave expected to be settled within 12 months represents the amount the Council has a present obligation to pay resulting from employee's services provided to balance date. The provision has been calculated at nominal amounts based on remuneration rates the Council expects to pay and includes related on-costs.

Long Service Leave (Long-term Benefits)

The liability for long service leave is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currency that match as closely as possible, the estimated future cash outflows.

Where Council does not have the unconditional right to defer settlement beyond 12 months, the liability is recognised as a current liability.

(q) Superannuation

The Council contributes to a number of Superannuation Funds on behalf of their employees. Contributions to defined contribution plans are recognised as an expense as they become payable. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

(r) Joint Venture

The municipality's interest in a joint venture has been recognised in the financial statements by including its share of any assets, liabilities, revenues and expenses of the joint venture within the relevant items reported in the Statement of Financial Position and Statement of Comprehensive Income. Information about the joint venture is set out in Note 17.

(s) Rates, Grants, Donations and Other Contributions

Rates, grants, donations and other contributions are recognised as revenues when the local government obtains control over the assets comprising the contributions. Control over assets acquired from rates is obtained at the commencement of the rating period or, where earlier, upon receipt of the rates.

Where contributions recognised as revenues during the reporting period were obtained on the condition that they be expended in a particular manner or used over a particular period, and those conditions were undischarged as at the reporting date, the nature of and amounts pertaining to those undischarged conditions are

disclosed at Note 2(d). That note also discloses the amount of contributions recognised as revenues in a previous reporting period which were obtained in respect of the local government's operation for the current reporting period.

(t) Current and Non-Current Classification

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Council's operation cycle. In the case of liabilities where the Council does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current even if not expected to be realised in the next 12 months except for land held for resale where it is held as non-current based on the Council's intentions to release for sale.

(u) Rounding Off Figures

All figures shown in this annual financial report , other than a rate in the dollar, are rounded to the nearest dollar.

(v) Comparative Figures

Where required, comparative figures have been adjusted to conform with changes in presentation for the current financial year.

When the Council applies an accounting policy retrospectively, makes a retrospective restatement or reclassifies items in its financial statement, a statement of financial position as at the beginning of the earliest period will be disclosed.

(w) Budget Comparative Figures

Unless otherwise stated, the budget comparative figures shown in this annual financial report relate to the original budget estimate for the relevant item of disclosure.

(x) Investment Property

Investment property, principally comprising freehold office buildings, is held for long-term rental yields. Investment property is carried at fair value, representing open-market value determined annually by external users.

(y) Non-Current Assets (or Disposal Groups) "Held for Sale" & Discontinued Operations

Non-current assets (or disposal groups) are classified as held for sale and stated at the lower of either (i) their carrying amount and (ii) fair value less costs to sell, if their carrying amount will be recovered principally through a sale transaction rather than through continuing use.

The exception to this is plant and motor vehicles which are turned over on a regular basis. Plant and motor vehicles are retained in Non Current Assets under the classification of Property, Plant and Equipment - unless the assets are to be traded in after 30 June and

Notes to the Financial Statements for the year ended 30 June 2014

Note 1: Summary of Significant Accounting Policies

the replacement assets were already purchased and accounted for as at 30 June.

For any assets or disposal groups classified as Non-Current Assets "held for sale", an impairment loss is recognised at any time when the assets carrying value is greater than its fair value less costs to sell.

Non-current assets "held for sale" are not depreciated or amortised while they are classified as "held for sale".

Non-current assets classified as "held for sale" are presented separately from the other assets in the balance sheet.

A Discontinued Operation is a component of Council that has been disposed of or is classified as "held for sale" and that represents a separate major line of business or geographical area of operations, is part of a single co-ordinated plan to dispose of such a line of business or area of operations, or is a subsidiary acquired exclusively with a view to resale.

The results of discontinued operations are presented separately on the face of the income statement.

(z) Intangible Assets

Council has not classified any assets as Intangible.

(aa) New Accounting Standards and Interpretations for Application in Future Periods

Certain new (or amended) accounting standards and interpretations have been published that are not mandatory for reporting periods ending 30 June 2014.

Council has not adopted any of these standards early.

Council's assessment of the impact of these new standards and interpretations is set out below.

Applicable to Local Government with implications:

AASB 9 Financial Instruments, associated standards, AASB 2010-7 Amendments to Australian Accounting Standards arising from AASB 9 and AASB 2012-6 Amendments to Australian Accounting Standards – Mandatory Effective Date of AASB 9 and transitional disclosures and AASB 2013-9 Amendments to Australian Accounting Standards – Conceptual Framework, Materiality and Financial Instruments (effective from 1 January 2017)

AASB 9 Financial Instruments addresses the classification, measurement and de-recognition of financial assets and financial liabilities.

The standard is not applicable until 1 January 2015 but is available for early adoption.

When adopted, the standard will affect in particular Council's accounting for its available-for-sale financial assets, since AASB 9 only permits the recognition of fair value gains and losses in other comprehensive income if they relate to equity investments that are not held for trading.

Fair value gains and losses on available-for-sale debt investments, for example, will therefore have to be recognised directly in profit or loss although there is currently a proposal by the IASB to introduce a Fair value through Other Comprehensive Income category for debt instruments.

There will be no impact on Council's accounting for financial liabilities, as the new requirements only affect the accounting for financial liabilities that are designated at fair value through profit or loss and Council does not have any such liabilities.

The de-recognition rules have been transferred from AASB 139 Financial Instruments: Recognition and Measurement and have not been changed.

The Council has not yet fully assessed the impact on the reporting financial position and performance on adoption of AASB 9.

Applicable to Local Government but no implications for Council:

AASB 2013-3 Amendments to AASB 136 Recoverable Amount Disclosures for Non-Financial Assets (effective for 30 June 2015 Financial Statements)

There are no changes to reported financial position or performance from AASB 2013 - 3, however additional disclosures may be required.

Applicable to Local Government but not relevant to Council at this stage;

AASB 10 Consolidated Financial Statements, AASB 11 Joint Arrangements, AASB 12 Disclosure of Interests in Other Entities, revised AASB 127 Separate Financial Statements and AASB 128 Investments in Associates and Joint Ventures and AASB 2011-7 Amendments to Australian Accounting Standards arising from the Consolidation and Joint Arrangements Standards (effective for 30 June 2015 Financial Statements for not-for-profit entities)

This suite of five new and amended standards address the accounting for joint arrangements, consolidated financial statements and associated disclosures.

AASB 10 replaces all of the guidance on control and consolidation in AASB 127 Consolidated and Separate Financial Statements, and Interpretation 12 Consolidation – Special Purpose Entities.

The core principle that a consolidated entity presents a parent and its subsidiaries as if they are a single economic entity remains unchanged, as do the mechanics of consolidation. However, the standard introduces a single definition of control that applies to all entities

It focuses on the need to have both power and rights or exposure to variable returns.

Power is the current ability to direct the activities that significantly influence returns. Returns must vary and can be positive, negative or both.

Control exists when the investor can use its power to affect the amount of its returns.

There is also new guidance on participating and protective rights and on agent/principal relationships. Council does not expect the new standard to have a significant impact on its composition.

Notes to the Financial Statements for the year ended 30 June 2014

Note 1: Summary of Significant Accounting Policies

AASB 11 introduces a principles based approach to accounting for ioint arrangements.

The focus is no longer on the legal structure of joint arrangements, but rather on how rights and obligations are shared by the parties to the joint arrangement.

Based on the assessment of rights and obligations, a joint arrangement will be classified as either a joint operation or a joint venture.

Joint ventures are accounted for using the equity method, and the choice to proportionately consolidate will no longer be permitted.

Parties to a joint operation will account their share of revenues, expenses, assets and liabilities in much the same way as under the previous standard.

AASB 11 also provides guidance for parties that participate in joint arrangements but do not share joint control.

Council's investment in the joint venture partnership will be classified as a joint venture under the new rules.

As Council already applies the equity method in accounting for this investment, AASB 11 will not have any impact on the amounts recognised in its financial statements.

AASB 12 sets out the required disclosures for entities reporting under the two new standards, AASB 10 and AASB 11, and replaces the disclosure requirements currently found in AASB 127 and AASB 128.

Application of this standard by Council will not affect any of the amounts recognised in the financial statements, but will impact the type of information disclosed in relation to Council's investments.

Amendments to AASB 128 provide clarification that an entity continues to apply the equity method and does not remeasure its retained interest as part of ownership changes where a joint venture becomes an associate, and vice versa.

The amendments also introduce a "partial disposal" concept.

Council is still assessing the impact of these amendments.

Council does not expect to adopt the new standards before their operative date.

They would therefore be first applied in the financial statements for the annual reporting period ending 30 June 2015.

Not applicable to Local Government per se;

There are no other standards that are "not yet effective" and expected to have a material impact on Council in the current or future reporting periods and on foreseeable future transactions.

(ab) Comparative Figures

To ensure comparability with the current reporting period's figures, some comparative period line items and amounts may have been reclassified or individually reported for the first time within these financial statements and/or the notes.

(ac) Disclaimer

Nothing contained within these statements may be taken to be an admission of any liability to any person under any circumstance.

Note 2. Operating Revenues and Expenses (continued)

\$

(b). Statement of Objectives, Reporting Programs and Nature or Type

City of Bayswater is dedicated to providing high quality services to the community through the various service orientated programs which it has established.

REPORTING PROGRAM DESCRIPTIONS

Council operations that are disclosed encompass the following service orientated activities/programs:

GOVERNANCE

Objective: To provide a decision making process for the efficient allocation of scarce resources.

Activities: Includes the activities of members of council and the administrative support available to the council for the provision of governance of the district. Other costs relate to the task of assisting elected members and ratepayers on matters which do not concern specific council services.

GENERAL PURPOSE FUNDING

Objective: To collect revenue to allow for the provision of services.

Activities: Rates, general purpose government grants, and interest revenue.

LAW, ORDER, PUBLIC SAFETY

Objective: To provide services to help ensure a safer and environmentally conscious community.

Activities: Supervision and enforcement of various local laws relating to fire prevention, animal control and protection of the environment and other aspects of public safety including emergency services.

HEALTH

Objective: To provide services to achieve community and environmental health

Activities: Maternal and infant health facilities, immunisation, me, inspection of food outlets, noise control and pest control services.

EDUCATION AND WELFARE

Objective: To provide services to children, youth, the elderly and disadvantaged persons

Activities: Pre-school and other education services, child minding facilities, playgroups, senior citizens centres, meals on wheels and home care services.

HOUSING

Objective: To provide housing for rental or future sale.

Activities: Provision and maintenance of community housing.

COMMUNITY AMENITIES

Objective: To provide services required by the community.

Activities: Rubbish collection services, operation of rubbish disposal sites, litter control, construction and maintenance of urban storm water drains, protection of the environment and administration of town planning schemes, and public conveniences.

Notes to the Financial Statements for the year ended 30 June 2014

Note 2. Operating Revenues and Expenses (continued)

\$

(b). Statement of Objectives, Reporting Programs and Nature or Type (continued)

RECREATION AND CULTURE

Objective: To establish and effectively manage infrastructure and resources which will help the social wellbeing of the community.

Activities: Maintenance of public halls, civic centre, aquatic centre, beaches, recreation centres and various sporting facilities. Provision and maintenance of parks, gardens and playgrounds. Operation of library, museum and other cultural facilities.

TRANSPORT

Objective: To provide safe, effective and efficient transport services to the community.

Activities: Construction (if not capitalised) and maintenance of roads, streets, footpaths, depots, cycleways, parking facilities and traffic control. Cleaning of streets and maintenance of street trees, street lighting etc.

ECONOMIC SERVICES

Objective: To help promote the city and its economic wellbeing.

Activities: Tourism and area promotion. Provision of services including weed control, vermin control and standpipes. Building control.

OTHER PROPERTY & SERVICES

Objective: To monitor and control council's overheads operating accounts.

Activities: Private works operation, plant repair and operation costs and engineering operation costs.

(c) Nature or Type Classifications

City of Bayswater is required by the Australian Accounting Standards to disclose revenue and expenditure according to its nature or type classification. The following nature or function descriptions are also required by State Government regulations.

REVENUE

Rates

All rates levied under the Local Government Act 1995. Includes general, differential, specific area rates, minimum rates, interim rates, back rates, ex-gratia rates, less discounts offered. Excludes administration fees, interest on instalments, interest on arrears, service charges and waste and sewerage rates.

Operating Grants, Subsidies and Contributions

Refer to all amounts received as grants, subsidies and contributions that are not non-operating grants.

Non-Operating Grants, Subsidies and Contributions

Amounts received specifically for the acquisition, construction of new or the upgrading of non-current assets paid to a local government, irrespective of whether these amounts are received as capital grants, subsidies, contributions or donations.

Profit on Asset Disposal

Profit on the disposal of assets including gains on the disposal of long term investments. Losses are disclosed under the expenditure classifications

Notes to the Financial Statements for the year ended 30 June 2014

Note 2. Operating Revenues and Expenses (continued)

\$

(c) Nature or Type Classifications

REVENUE (continued)

Fees and Charges

Revenue (other than service charges) from the use of facilities and charges made for local government services, sewerage rates, rentals, hire charges, fee for service, photocopying charges, licences, sale of goods or information, fines, penalties and administration fees.

Interest Earnings

Interest and other items of a similar nature received from bank and investment accounts, interest on rate instalments, interest on rate arrears and interest on debtors.

Other Revenue

Other revenue, which cannot be classified under the above headings, includes dividends, discounts, rebates, etc.

EXPENDITURE

Employee Costs

All costs associated with the employment of persons such as salaries, wages, allowances, benefits such as vehicle and housing, superannuation, employment expenses, removal expenses, relocation expenses, worker's compensation insurance, training costs, conferences, safety expenses, medical examinations, fringe benefits tax etc.

Material and Contracts

All expenditure on materials, supplies and contracts not classified under other headings. These include supply of goods and materials, legal expenses, consultancy, maintenance agreements, communication expenses, advertising expenses, membership, periodicals, publications, hire expenses, rental, leases, postage and freight etc.

Utilities (Gas, Electricity, Water, etc.)

Expenditures made to respective agencies for the provision of power, gas or water. Excludes expenditure incurred for the re-instatement of road works on behalf of these agencies.

Depreciation on Non-Current Assets

Depreciation and amortisation expense raised on all classes of assets.

Loss on Asset Disposal

Loss on the disposal of fixed assets.

Interest Expenses

Interest and other costs of finance paid, including costs of finance for loan debentures, overdraft accommodation and re-financing expenses.

Insurance

All insurance other than worker's compensation and health benefit insurance included as a cost of employment.

Other Expenditure

Statutory fees, taxes, provision of bad debts. Donations and subsidies made to community groups.

¹ The City of Bayswater Aged Persons Homes holds \$22,391,836 in refundable contributions (Accommodation Bonds). These contributions have been reclassified as current liabilities as the provider does not have the right to defer settlement. However the expected settlement of the liability is expected to be greater than twelve months.

Accommodation bonds are charged for admittance in accordance with current State and Federal Government regulations. These fees can vary according to each individuals financial status and, in accordance with current policy embodying the relevant regulations, varying amounts are deducted for "Retention" over a period of 5 years.

Notes to the Financial Statements

for the year ended 30 June 2014

Note 12. Reserves - Cash Backed (continued)

\$

The 2013-2014 Budget provided for changes to the Reserve Fund accounts. This resulted in the creation of a number of new reserves and a reallocation of existing Reserve account balances. Reserve account titles and purpose have been amended as required. For compartive purposes the closing 30 June 2013 balance has been allocated to align with the new structure.

All of the cash backed reserve accounts are supported by money held in financial institutions and match the amounts shown as restricted cash in Note 3 and 4 to this financial report.

In accordance with council resolutions in relation to each reserve account, the purpose for which the reserves are set aside are as follows:

Long Service Leave

To provide for the payment to employees of Long Service Leave and approved entitlements in accordance with statute, and for forwarding on to other Councils upon staff movement.

Workers Compensation

To finance Workers' Compensation costs in excess of premium deposits, using the burning cost method (as per Council's Workers Compensation Policy).

Gratuity Reserve

To provide funds for gratuity payments made to retiring employees of the City of Bayswater.

Major Capital Works Reserve

To finance the cost of major capital works programs as approved by Council in the Annual Budget as adopted.

Plant & Equipment Reserve

For the purposes of acquisition of plant and equipment use in Council's outside and Depot operations.

Property Building & Equipment Reserve

To provide a cash-backed resere for property, buildings and equipment and computer equipment.

Building Upgrade Reserve

For the purpose of preserving and upgrading Council's buildings.

Bayswater Aquatic Centre Replacement Reserve

A cash-backed reserve to provide for the replacement of capital items at the Bayswater Waves Aquatic Centre.

Morley Sport & Recreation Centre Reserve

To provide a cash-backed reserve for the development of the Morley Sport and Recreation Centre.

The RISE Reserve

To provide a cash-backed reserve for the development of the RISE.

Maylands Waterland Reserve

To provide a cash-backed reserve for the development of the Maylands Water Playground.

Bore & Reticulation Reserve

For the installation of new bores and reticulation, and the replacement of old bore and reticulation systems, due to wear and tear.

Computer PC Laptops Replacement Reserve

To provide funding for the replacement of laptop computers and general personal computer replacement for elected members and staff.

Prudential Compliance

To provide a cash backed prudential reserve to meet the accommodation obligations for Residential Care Facilities and Independent Living Units.

Aged Persons Homes - General Reserves

This reserve restricts funds held for the Independent Living Units and Residential Care Facilities owned and controlled by the City. These funds are managed in accordance with the relevant statutory requirements and policies.

Notes to the Financial Statements

for the year ended 30 June 2014

Note 12. Reserves - Cash Backed (continued)

\$

Aged Persons Homes - Employee Entitlements

To provide restricted funds to meet the City's contractual obligations for Residential Care Facilities and Independent Living Unit activities.

Child Care Association - Building Reserve

To provide funding for future building upgrades and development.

Child Care Association - Equipment Reserve

To provide funds for equipment replacements.

Child Care Association - Capital Works Reserve

For the development of care facilities.

Child Care Association - Motor Vehicle reserve

To provide funds for the replacement of motor vehicles.

Total Capital Expenditure Commitments	6,922,259	4,420,418

The capital expenditure project outstanding at the end of the current reporting period represents the construction of the new recreation centre.

Note 17. Joint Ventures

Council's objectives can and in some cases are best met through the use of separate entities & operations.

These operations and entities range from 100% ownership and control through to lower levels of ownership and control via co-operative arrangements with other Councils, Bodies and other Outside Organisations.

The accounting and reporting for these various entities, operations and arrangements varies in accordance with accounting standards.

The City of Bayswater is in joint venture with:

(a) Homeswest - Community Housing Project

Ten (10) Houses.

- Stage 1 No 2 Haddrill Street (4 Units)
- Stage 2 No 20 Francis Street (6 Units)

The City has a 25% interest in the project. Operating costs are funded by the City from rental received on the houses. Excess income over expenditure is retained as a restricted cash item for future community housing projects.

(b) City of Swan - Altone Park - a community, sporting and recreational facility

The financial statements reflect the City of Bayswater's interest in the joint development with the City of Swan for the development of a community recreation and sporting facility at Altone Park.

The City of Bayswater has the following interest in the assets and liabilities of the venture.

- Pavilion 50%
- Recreation Centre 50%
- Library 33%

Operating costs are shared on the basis of each interest.

The City's share of the assets and liabilities to each venture are recorded in the statement of financial position under the following classifications:

Notes to the Financial Statements for the year ended 30 June 2014

Notes

⁽¹⁾ This is a modified commercial ratio designed to focus on the liquidity position of the Council that has arisen from past year's transactions.

⁽²⁾ This ratio is the measurement of Council's ability to repay its debt including lease payments.

⁽³⁾ This ratio is the measurement of Council's ability to cover its costs through its own revenue efforts.

⁽⁴⁾ This ratio is a measure of Council's ability to cover its operational costs and have revenues available for capital funding or other purposes.

⁽⁵⁾ This ratio indicates whether Council is replacing or renewing existing non-financial assets at the same rate that its overall asset stock is wearing out.

⁽⁶⁾ This ratio measures the extent to which depreciable assets have been consumed by comparing their written down value to their replacement cost.

⁽⁷⁾ This ratio is a measure of the ability of Council to fund its projected asset renewal / replacements in the future.

Notes to the Financial Statements for the year ended 30 June 2014

Note 32. Financial Risk Management

\$

Council's activities expose it to a variety of financial risks including (1) price risk, (2) credit risk, (3) liquidity risk and (4) interest rate risk.

The Council's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the Council.

Council does not engage in transactions expressed in foreign currencies and is therefore not subject to foreign currency risk.

Financial risk management is carried out by Council's Finance Section under policies approved by the Council.

The City held the following financial instruments at balance date.

		Carrying value		Fair Value	
	Notes	2014	2013	2014	2013
Financial Assets					
Cash and Cash Equivalents	3	53,402,380	52,302,431	53,402,380	52,302,431
Receivables (Current & Non-Current)	5	6,536,110	5,330,864	6,536,110	5,330,864
Investment in Joint Venture	4	26,435,434	18,373,133	26,435,434	18,373,133
		86,373,924	76,006,428	86,373,924	76,006,428
Financial Liabilities					
Payables (Current & Non-Current)	9	5,215,414	4,062,661	5,215,414	4,062,661
Refundable Contributions	9	22,391,836	23,509,904	22,391,836	23,509,904
Borrowings (Current & Non-Current)	10	157,831	224,003	148,854	215,026
		27,765,081	27,796,568	27,756,104	27,787,591

Fair Value is determined as follows:

- Cash & Cash Equivalents, Receivables, Payables are estimated to be the carrying value which approximates market value.
- Borrowings & Held to Maturity Investments estimated future cash flows discounted by the current market interest rates applicable to assets & liabilities with similar risk profiles.
- Financial Assets classified (i) "at far value through profit & loss" or (ii) Available for Sale based on quoted market prices at the reporting date or independent valuation.

(a). Cash & Cash Equivalents, Financial assets "at Fair Value through the Profit & Loss", "Available-for-sale" financial assets & "Held-to-maturity" Investments

Council's objective is to maximise its return on cash & investments whilst maintaining an adequate level of liquidity and preserving capital.

Council's Finance Section manages the Cash & Investments portfolio with the assistance of independent advisors.

Council has an Investment Policy which complies with the relevant legislation. The policy is regularly reviewed by Council and an Investment Report is tabled before Council on a monthly basis setting out the make-up and performance of the portfolio.

The major risk associated with Investments is price risk - the risk that the capital value of Investments may fluctuate due to changes in market prices, whether there changes are caused by factors specific to individual financial instruments or their issuers or are caused by factors affecting similar instruments traded in a market.

Cash & Investments are also subject to interest rate risk - the risk that movements in interest rates could affect returns and income.

A further risk associated with Cash & Investments is credit risk - the risk that the investment counterparty will not complete their obligations particular to a financial instrument, resulting in a financial loss to Council - be it of a capital or income nature.

Council manages these risks by diversifying its portfolio and only purchasing investments with high credit ratings or capital guarantees in accordance with investment restrictions prescribed in the Local Government (Financial Management) Regulations 1996.

	30-Jun-14	30-Jun-13
Impact of a 1% (1) movement in interest rates on cash and investments		
Equity	534,024	523,024
Statement of Comprehensive Income	534,024	523,024

Notes:

1. Sensitivity percentages based on management's expectations of future possible market movements. (Price movements calculated on investments subject to fair value adjustments. Interest rate movements calculated on cash, cash equivalents and managed funds.)

Notes to the Financial Statements for the year ended 30 June 2014

Note 32. Financial Risk Management (continued)

\$

(b). Receivables

Council's major receivables comprise (i) Rates & Annual charges and (ii) User Charges & Fees.

The major risk associated with these receivables is credit risk - the risk that debts due and payable to Council may not be repaid.

Council manages this risk by monitoring outstanding debt and employing stringent debt recovery procedures. It also encourages ratepayers to pay their rates by the due date through incentives.

Credit risk on rates and annual charges is minimised by the ability of Council to secure a charge over the land relating to the debts - that is, the land can be sold to recover the debt. Council is also able to charge interest on overdue rates & annual charges at higher than market rates which further encourages the payment of debt.

The level of outstanding receivables is reported to Council monthly and benchmarks are set and monitored for acceptable collection performace.

Council makes suitable provision for doubtful receivables as required and carries out credit checks on most non-rate debtors.

There are no material receivables that have been subjected to a re-negotiation of repayment terms.

A profile of Council's receivables credit risk at balance date follows:

30-Jun-14	30-Jun-13
%	%
49.45%	54.51%
50.55%	45.49%
91.66%	91.25%
8.34%	8.75%
	% 49.45% 50.55% 91.66%

Notes to the Financial Statements for the year ended 30 June 2014

Note 32. Financial Risk Management (continued)

\$

(c). Payables & Borrowings

Payables & Borrowings are both subject to liquidity risk - the risk that insufficient funds may be on hand to meet payment obligations as and when they fall due.

Council manages this risk by monitoring its cash flow requirements and liquidity levels and maintaining an adequate cash buffer.

Payment terms can be extended & overdraft facilities drawn upon in extrenuating circumstances.

The contractual undiscounted cash outflows (ie. principal and interest) of Council's Payables & Borrowings are set out in the Liquidity Table below:

\$	Due	Due	Due	Total	Carrying
	within	between	after	contractual	values
	1 year	1 & 5 years	5 years	cash flows	
2014					
Payables	5,203,515		1.40	5,203,515	27,097,511
Borrowings	80,417	93,164	12,159	185,740	157,832
A SCHOOL OF	5,283,932	93,164	12,159	5,389,255	27,255,343
2013					
Payables	4,062,661			4,062,661	4,062,661
Borrowings	79,593	168,177	17,563	265,333	224,003
	4,142,254	168,177	17,563	4,327,994	4,286,664

The City of Bayswater Aged Persons Homes holds \$22,391,836 in refundable contributions (Accommodation Bonds). These contributions have been classified as current liabilities as the provider does not have the right to defer settlement. However the expected settlement of the liability is expected to be greater than twelve months.

Accommodation bonds are charged for admittance in accordance with current State and Federal Government regulations. These fees can vary according to each individuals financial status and, in accordance with current policy embodying the relevant regulations, varying amounts are deducted for "Retention" over a period of 5 years.

Borrowings are also subject to interest rate risk - the risk that movements in interest rates could adversely affect funding costs & debt servicing requirements. Council manages this risk by borrowing long term and fixing the interest rate on a basis that is most suitable for the circumstance. Council officers regulary review interest rate movements to determine if it would be advantageous to refinance or renegotiate.

The following interest rates were applicable to the Council's Borrowings at balance date:

	30-Jur	30-Jun-14		30-Jun-13	
	Weighted	Balance	Weighted	Balance	
	average		average		
	interest		interest		
	rate %	\$	rate %	\$	
Bank Loans - Fixed	1.39%	157,832	2.74%	224,003	
		157,832		224,003	

Notes:

1. The interest rate risk applicable to Variable Rate Bank Loan is not considered significant.

Notes to the Financial Statements for the year ended 30 June 2014

Note 33. Fair Value Measurements

\$

The fair value of assets and liabilities must be estimated in accordance with various Accounting Standards for either recognition and measurement requirements or for disclosure purposes.

- AASB 13 requires disclosure of fair value measurements by level of the following fair value measurement hierarchy:
- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities,
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability either directly or indirectly,
- Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The City's land, buildings and infrastructure assets were revalued in 2014 (Plant & Equipment were revalued in 2013). Additions since valuation to 30 June 2014 are at cost.

The City of Bayswater Child Care Association assets and liabilities are carried at cost and have been excluded.

(1) The following table presents all assets and liabilities that have been measured & recognised at fair values:

Note 33. Fair Value Measurements (continued)

\$

(2) Transfers between Level 1 & Level 2 Fair Value Hierarchies

During the year, there were no transfers between Level 1 and Lervel 2 Fair Value hierarchies for recurring fair value measurements.

(3) Valuation techniques used to derive Level 2 and Level 3 Fair Values

(1) Recurring Value Methods

The following methods are used to determine the fair value measurements.

The City's Land and Buildings were revalued in 2014 by APV Valuers & Asset Management.

Land

<u>Level 2 valuation inputs</u> were used to value land held in freehold title as well as land used for special purpose which is restricted under current zoning rules.

The valuation of freehold (saleable) land has been carried out using the market approach and they have been assessed on the basis of the estimated amount which each interest in each property being valued might reasonably be expected to realise in an exchange between market participants given highest and best use.

The most significant inputs into this valuation approach are price per square metre.

The valuation of restricted or otherwise non-saleable land has been valued using the cost approach.

Specific Considerations

Contaminated Sites - Several sites valued are deemed to be potentially contaminated by activities carried out by council. These valuations represent the current replacement cost of the land the council would need to acquire "non-contaminated" land and as such as such any instances or possibilities of contamination have been disregarded.

Zonings - A number of parcels of land have been given zonings that relate to public open space, conservation areas and specific locality zonings. These zonings are not representative of surrounding land use. The high level of development restrictions would not be considered normal in a open market situation.

Valuation has been based on the highest and best use of the land. In an open market situation these properties would be zoned similarly to surrounding land uses.

It should be noted that there is no evidence of sales within specific zoned areas.

Sale prices under comparable land sites in close proximity are adjusted for key attributes such as property size.

The most significant inputs into this valuation approach are price per square metre.

Buildings

Level 2 Valuation Inputs

These were used to determine the fair value of a range of properties. This included the bulk of residential and commercial properties.

The residential properties fair value has been derived from sales prices of comparable properties after adjusting for differences in key attributes such as property size. The most significant inputs into this valuation were price per metre.

Level 3 Valuation Inputs

Specialised buildings were valued using professionally qualified Registered Valuers. The approach estimated the replacement cost for for each building by componentising the buildings into significant parts with different useful lives and taking into account a range of factors. While the unit rates based on square metre could be supported by market evidence (Level 2) other inputs (such as estimates of residual value, useful life, pattern of consumption and asset condition) required extensive professional judgement and impacted significantly on the final determination of fair value. As such these assets were classified as having level 3 valuation inputs.

Plant & Equipment

Plant and Equipment fair values were determined by council as at 30 June 2013.

Subsequent to the 2013 council's revalued assets are reviewed to ensure that the carrying amount does not differ significantly from that determined using fair value at reporting date.

Valuations were undertaken utilizing in house professional staff referencing market conditions and the availability of sales evidence.

<u>Level 2 valuation inputs</u> have been applied having regard to the condition and useful life of the asset class except for computer equipment. which has been valued at Level 3.

Notes to the Financial Statements

for the year ended 30 June 2014

Note 33. Fair Value Measurements (continued)

\$

Infrastructure

All council infrastructure assets were fair valued using a depreciated replacement cost valuation technique. This method used assets current replacement cost less accumulated depreciation calculated on the basis of such cost to reflect the already consumed or expired future economic benefits of the asset. The gross cost of replacing the full service potential of the asset was established then adjusted to take into account the expired service potential of the asset.

The current replacement cost was measured by referencing the lowest cost at which the asset could be obtained in the normal course of business.

The total cost values have been calculated using work code unit costs based on current tender and general market rates.

All council infrastructure has been valued at fair value utilizing in house professional Asset Management staff.

Level 3 valuation inputs have been applied to all asset categories.

Infrastructure Categories

Roads

The road asset comprises seal, Pavement and Kerbing components.

The City of Bayswater's sealed road length is 351.4 Km and does not include MRWA controlled roads.

Valuation methodology comprises

- (1) Current replacement cost to replace the entire network : Current Replacement Cost = Unit Cost X Quantity
- (2) Depreciated Cost is the value the asset has deteriorate: Valuation Depreciation Rate (Critical Life) = (100/Critical Life (Years) % Per Annum

Critical Life - The lowest calculated life of longevity in years between "Conditioned Assessed Life and Design Assessed Life (Annual Revaluation)."

Footpaths

The footpath network comprises

Concrete Paths Brick Paved Paths Asphalt Paths Slab Paths

The City of Bayswater's footpath length is 313.2 Km.

Valuation methodology comprises

- (1) Current replacement cost to replace the entire network : Current Replacement Cost = Unit Cost X Quantity
- (2) Depreciated Cost is the value the asset has deteriorate: Valuation Depreciation Rate (Critical Life) = (100/Critical Life (Years) % Per Annum

Critical Life - The lowest calculated life of longevity in years between "Conditioned Assessed Life and Design Assessed Life (Annual Revaluation)

Drainage

The drainage network comprises Pits, Covers and Pipes

The City of Bayswater's length of pipes is 209.9KM

Valuation methodology comprises

- (1) Current replacement cost to replace the entire network : Current Replacement Cost = Unit Cost X Quantity
- (2) Depreciated Cost is the value the asset has deteriorate: Valuation Depreciation Rate (Critical Life) = (100/Critical Life (Years) % Per Annum

Critical Life - The lowest calculated life of longevity in years between "Conditioned Assessed Life and Design Assessed Life (Annual Revaluation)

Notes to the Financial Statements

for the year ended 30 June 2014

Note 33. Fair Value Measurements (continued)

\$

Drainage (continued)

Parks/Reserves/Car Parking

Valuation methodology comprises

- (1) Current replacement cost to replace the entire network: Current Replacement Cost = Unit Cost X Quantity
- (2) Depreciated Cost is the value the asset has deteriorate: Valuation Depreciation Rate (Critical Life) = (100/Critical Life (Years) % Per Annum

Critical Life - The lowest calculated life of longevity in years between "Conditioned Assessed Life and Design Assessed Life (Annual Revaluation)

Miscellaneous Infrastructure

The components split out to establish fair value for this category comprise the following

Bus Shelters

Public Litter Bins

Lighting

Entry Statements

Signage Poles

Street Signs and Parking Signs

Valuation methodology comprises

- (1) Current replacement cost to replace the entire network: Current Replacement Cost = Unit Cost X Quantity
- (2) Depreciated Cost is the value the asset has deteriorate: Valuation Depreciation Rate (Critical Life) = (100/Critical Life (Years) % Per Annum

Critical Life - The lowest calculated life of longevity in years between "Conditioned Assessed Life and Design Assessed Life (Annual Revaluation)

(5). Disclosed Fair Value Measurements

The following assets and liabilities are not measured at fair value in the statement of financial position, but their fair values are disclosed in the notes:

- Borrowings

The following table provides the level of fair value hierarchy within which the disclosed fair value measurements are caregorised in there entirety and a dscription of the valuation technique and inputs used:

Description	Note	Fair Value Hierarchy Level	Valuation Technique	Inputs Used
Borrowings	32	2	Income approach using discounted cash flow methodology	Current Treasury borrowing rates for similar instruments

(6). Highest and best use

All of Council's non financial assets are considered to being utilised for their highest and best use.

(7). Fair Value Sensitivity to Unobservable Inputs

Relationship between asset consumption rating scale and the level of consumed service potential.

Notes to the Financial Statements for the year ended 30 June 2014

Note 33. Fair Value Measurements (continued)

	Sensitivity to Unobservable Market Inputs		Amount of Potential Impact

Note 34. Discontinued Operations

Actual	Actual
\$ 2014	2013

(i) Discontinued Operations

City of Bayswater Cultural & Recreation Association (INC)

Established in 1999 to provide a governance mechanism for the City's contract management of the aquatic centre.

In May 2002 the requirements of the Association became redundant after Council resolved to bring the management of the aquatic centre in-house.

The City of Bayswater Cultural & Recreation Association was formerly wound up on the 20 June 2014.

(ii) Net Carrying Value of Discontinued Operations

Discontinued Operation		

Carrying Value - Assets	145,962	-
Carrying Value - Liabilities	(233,500)	
Net Carrying Value	(87,538)	-
Total Value of Discontinued Operations (On Hand)	(87,538)	

Note 35. Events occurring after the Reporting Period

Events that occur after the reporting period represent one of two types:

(i) those that provide evidence of conditions that existed at the end of the reporting period

These financial statements (and the figures therein) incorporate all "adjusting events" that provided evidence of conditions that existed at 30 June 2014.

(ii) those that are indicative of conditions that arose after the reporting period

Since the finalisation of these financial statements the Government announced its position on Local Government Reform. An estimate of its financial effect on the City is unknown.

INDEPENDENT AUDITOR'S REPORT

TO: RATEPAYERS OF CITY OF BAYSWATER

We have audited the financial report of the City of Bayswater, which comprises the Statement of Financial Position as at 30 June 2014 and the Statement of Comprehensive Income by Nature or Type, Statement of Comprehensive Income by Program, Statement of Changes in Equity and Statement of Cash Flows and Rate Setting Statement for the year ended on that date and a summary of significant accounting policies and other explanatory information and Statement by Chief Executive Officer.

Management's Responsibility for the Financial Report

Management is responsible for the preparation and fair presentation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards, the Local Government Act 1995 (as amended) and the Local Government (Financial Management) Regulations 1996 (as amended) and for such internal controls as management determines is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial report based on our audit. Our audit has been conducted in accordance with Australian Auditing Standards. These Auditing Standards require that we comply with the relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to management's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the council's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit, we followed applicable independence requirements of Australian professional ethical pronouncements.

INDEPENDENT AUDITOR'S REPORT

TO: RATEPAYERS OF CITY OF BAYSWATER (Cont'd)

Auditor's Opinion

In our opinion, the financial report of the City of Bayswater:

- (a) gives a true and fair view of the financial position of the City of Bayswater as at 30 June 2014 and of its financial performance for the year ended on that date; and
- (b) complies with the Local Government Act 1995 (as amended), the Local Government (Financial Management) Regulations 1996 (as amended) and the Australian Accounting Standards.

Report on Other Legal and Regulatory Requirements

In accordance with the Local Government (Audit) Regulations 1996, we also report that:

- (a) There are no matters that in our opinion indicate significant adverse trends in the financial position or financial management practices of the Council.
- (b) There are no matters indicating non-compliance with Part 6 of the Local Government Act 1995 (as amended), the Local Government (Financial Management) Regulations 1996 (as amended) or applicable financial controls of any other written law were noted during the course of our audit.
- (c) In relation to the asset consumption ratio and asset renewal funding ratio (presented at Note 22 of the annual financial report) we have reviewed the calculations as presented and nothing has come to our attention to suggest they are not:

PARTNER

- (i) reasonably calculated; and
- (ii) based on verifiable information.
- (d) All necessary information and explanations were obtained by us.
- (e) All audit procedures were satisfactorily completed in conducting our audit.
