

City of Bayswater Street Tree Request

I would like free trees for my verge!

Name: _____

Address: _____

Suburb: _____

Mobile: _____

Telephone: _____

Email: _____

The City will install free street trees according to the space available on your front and side verges. The species chosen is usually in line with other appropriate species in the street, however if you have a preference for a particular tree on the City's planting list, please note it below for consideration.

Preferred species: _____

Requested number or trees: Front Verge: _____

Side Verge: _____

Completed forms can be sent to mail@bayswater.wa.gov.au for inclusion in the winter planting program.

Once your request is received, the City's Consulting Arborist will inspect your verge and may contact you to discuss your request further.

Please note: At times there is limited stock availability and the City may not be able to supply your preferred tree species in the next planting program.

Thank you for help in greening the City of Bayswater

I will help the City increase it's Urban Canopy by watering my new tree(s) over the summer period.
