### <u>Overview</u>

These financial statements are General Purpose Financial Statements and cover the consolidated operations for the City of Bayswater. (i)

(ii) All figures presented in these financial statements are presented in Australian Currency.

### General Purpose Financial Statements

for the year ended 30 June 2015

### Understanding Council's Financial Statements

#### Introduction

Each year, individual Local Governments across Western Australia are required to present a set of audited Financial Statements to their Council and Community in accordance with the Local Government Act 1995 and the Local Government (Financial Management) Regulations 1996.

#### About the Certification of Financial Statements

The Financial Statements must be certified by the Chief Executive Officer as (i) presenting fairly the Council's financial results for the year and complying with (ii) Australian Accounting Standards and the *Local Government Act 1995*.

#### What you will find in the Statements

The Financial Statements set out the financial performance, financial position and cash flows of Council for the financial year ended 30 June 2015.

The format of the Financial Statements is standard across all Western Australian Councils and complies with both the accounting and reporting requirements of Australian Accounting Standards and the requirements as set down in the Western Australian Local Government Accounting Manual.

The Financial Statements incorporate 6 "primary" financial statements:

#### 1. A Statement of Comprehensive Income -

(by Nature or Type)

A summary of Council's financial performance for the year, listing all income & expenses by their "nature or type". This allows users of the financial statements to identify a break up of operating revenues and expenses for the year.

#### 2. A Statement of Comprehensive Income -

(by Program)

A summary of Council's financial performance for the year, listing all income & expenses by "program". This allows users of the financial statements to identify the cost relating to each Council Program and whether or not these costs were recovered from Program revenues.

#### 3. A Statement of Financial Position

A 30 June snapshot of Council's financial position listing its assets & liabilities.

#### 4. A Statement of Changes in Equity

The overall change for the year (in dollars) of Council's "net wealth".

#### 5. A Statement of Cash Flows

Indicates where Council's cash came from and where it was spent across operating, investing & financing activities.

#### 6. A Rate Setting Statement

A Statement showing the amount of rates budgeted to be raised during the year to fund the Council's proposed Programs (and any budget surplus/deficit from prior years).

#### About the Notes to the Financial Statements

The Notes to the Financial Statements provide greater detail and additional information on the 6 Primary Financial Statements.

#### About the Auditor's Reports

Council's Financial Statements are required to be audited by external accountants (that generally specialise in Local Government).

In Western Australia, the Auditor provides an audit report that provides an opinion on whether the Financial Statements present fairly the Council's financial performance and position.

#### Who uses the Financial Statements?

The Financial Statements are publicly available documents and are used by (but not limited to) Councillors, Residents and Ratepayers, Employees, Suppliers, Contractors, Customers, the Department of Local Government, and Financiers including Banks and other Financial Institutions.

Under the *Local Government Act 1995* the Financial Statements must be made available at the office of the Council.

Financial Statements for the year ended 30 June 2015

Local Government Act 1995

Local Government (Financial Management) Regulations 1996

### Statement by Chief Executive Officer

The attached financial report of the City of Bayswater being the annual financial report and supporting notes and other information for the financial year ended 30 June 2015 are in my opinion properly drawn up to present fairly the financial position of the City of Bayswater at 30 June 2015 and the results of the operations for the financial year ended in accordance with the *Australian Accounting Standards* and comply with the provisions of the *Local Government Act 1995* and the regulations under that Act.

Signed on the \_\_\_\_\_ day of \_\_\_\_\_ 2015

Francesca Lefante BA (Urb & Reg Stud), Grad Dip (Urb & Reg Plan)

CHIEF EXECUTIVE OFFICER

#### Notes to the Financial Statements for the year ended 30 June 2015

### Note 1: Summary of Significant Accounting Policies

The principal accounting policies adopted in the preparation of the financial report are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

#### (a) Basis of preparation

The financial report comprises general purpose financial statements which have been prepared in accordance with Australian Accounting Standards (as they apply to local governments and not-for-profit entities), other authoritative pronouncements of the Australian Standards Board, *Local Government Act 1995* and accompanying regulations. The report has also been prepared on the accrual basis under the convention of historical cost accounting modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

#### **Critical Accounting Estimates**

The preparation of a financial report in conformity with Australian Accounting Standards requires the use of certain critical accounting estimates. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances. The results of this experience and other factors combine to form the basis of making judgements about carrying values of assets and liabilities not readily apparent from other sources. Actual results may differ from these estimates.

#### (b) The Local Government Reporting Entity

All Funds through which the Council controls resources to carry on its functions have been included in the financial statements forming part of this financial report. In the process of reporting on the local government as a single unit, all transactions and balances between those funds (for example, loans and transfers between Funds) have been eliminated. All monies held in the Trust Fund are excluded from the financial statements, but a separate statement of those monies appears at Note 18 to this financial report.

#### **Principles of Consolidation**

All entities through which the Council controls resources to carry on its operation have been included in the financial statements. This encompasses:

#### Main Entity

The Council of the City of Bayswater

#### Consolidation

The Council of the City of Bayswater The City of Bayswater Child Care Association (Inc.)

#### (c) Goods and Services Tax

In accordance with recommended practice, revenues, expenses and assets capitalised are stated net of any GST recoverable. Receivables and payables in the Statement of Financial Position are stated inclusive of applicable GST. Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

#### (d) Cash and Cash Equivalents

Cash and cash equivalents in the Statement of Financial Position comprise cash at bank and on hand or that are readily convertible

to known amounts of cash and which are subject to an insignificant risk of changes in value.

For the purposes of the Statement of Cash Flows, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts. Bank overdrafts are included as short-term borrowings in current liabilities on the Statement of Financial Position.

### (e) Trade and Other Receivables

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business. Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets.

Collectability of trade and other receivables is reviewed on an ongoing basis. Debts which are known to be uncollectible are written off when identified. An allowance for doubtful debts is raised when there is objective evidence that they will not be collectible.

#### (f) Inventories

## (i) Raw materials and stores, work in progress and finished goods

Raw materials and stores, work in progress and finished goods are stated at the lower of cost and net realisable value. Cost comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Costs are assigned to individual items of inventory on the basis of weighted average costs. Net realisable value is the established selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

## (ii) Land Held for resale/capitalisation of borrowing costs

Land held for resale is stated at the lower of cost and net realisable value. Cost is assigned by specific identification and includes the cost of acquisition, and development and borrowing costs during development. When development is completed borrowing costs and other holding charges are expensed as incurred. Borrowing costs included in the cost of land held for resale are those costs that would have been avoided if the expenditure on the acquisition and development of the land had not been made. Borrowing costs incurred while active development is interrupted for extended periods are recognised as expenses.

Revenue arising from the sale of property is recognised in the operating statement as at the time of signing a binding contract of sale. Land held for resale is classified as current except where it is held as non-current based on the Council's intentions to release for sale.

#### (g) Fixed Assets

#### Initial Recognition

All assets are initially recognised at cost. Cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed includes the cost of all materials, direct labour and variable and fixed overheads.

#### Notes to the Financial Statements for the year ended 30 June 2015

,

### Note 1: Summary of Significant Accounting Policies

# Mandatory Requirement to Revalue Non-Current Assets

Effective from 1 July 2012, the Local Government (Financial Management) Regulations were amended and the measurement of non-current assets at Fair Value became mandatory.

The amendments allow for a phasing in of fair value in relation to fixed assets over three years as follows:

- (a) for the financial year ending on 30 June 2013, the fair value of all of the assets of the local government that are plant and equipment; and
- (b) for the financial year ending on 30 June 2014, the fair value of all of the assets of the local government
  - (i) that are plant and equipment; and
    - (ii) that are
      - (I) land and buildings; or
      - (II) Infrastructure;
    - And
- (c) for a financial year ending on or after 30 June 2015, the fair value of all of the assets of the local government.

Thereafter, in accordance with the regulations, each asset class must be revalued at least every 3 years.

In 2013, Council commenced the process of adopting Fair Value in accordance with the Regulations.

Relevant disclosures, in accordance with the requirements of Australian Accounting Standards, have been made in the financial report as necessary.

#### Land Under Control

In accordance with Local Government (Financial Management) Regulation 16(a), the Council was required to include as an asset (by 30 June 2013), Crown Land operated by the local government as a golf course, showground, racecourse or other sporting or recreational facility of State or regional significance.

Upon initial recognition, these assets were recorded at cost in accordance with AASB 116. They were then classified as Land and revalued along with other land in accordance with the other policies detailed in this Note.

Whilst they were initially recorded at cost, fair value at the date of acquisition was deemed cost as per AASB 116.

#### Initial Recognition and Measurement between Mandatory Revaluation Dates

All assets are initially recognised at cost and subsequently revalued in accordance with the mandatory measurement framework detailed above.

In relation to this initial measurement, cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the Council includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads.

Individual assets acquired between initial recognition and the next revaluation of the asset class in accordance with the mandatory measurement framework detailed above, are carried at cost less accumulated depreciation as management believes this approximates fair value. They will be subject to subsequent revaluation at the next anniversary date in accordance with the mandatory measurement framework detailed above.

#### Land Under Roads

In Western Australia, all land under roads is Crown land, the responsibility for managing which, is vested in the local government.

Effective as at 1 July 2008, Council elected not to recognise any value for land under roads acquired on or before 30 June 2008. This accords with the treatment available in Australian Accounting Standard AASB 1051 Land Under Roads and the fact Local Government (Financial Management) Regulation 16 (a)(i) prohibits local governments from recognising such land as an asset.

In respect of land under roads acquired on or after 1 July 2008, as detailed above, Local Government (Financial Management) Regulation 16(a)(i) prohibits local governments from recognising such land as an asset.

Whilst such treatment is inconsistent with the requirements of AASB 1051, Local Government (Financial Management) Regulation 4(2) provides, in the event of such an inconsistency, the Local Government (Financial Management) Regulations prevail.

Consequently, any land under roads acquired on or after 1 July 2008 is not included as an asset of the Council.

#### Fair Value of Assets and Liabilities

When performing a revaluation, the Council uses a mix of both independent and management valuations using the following as a guide:

Fair Value is the price that Council would receive to sell the asset or would have to pay to transfer a liability, in an orderly (ie unforced) transaction between independent, knowledgeable and willing market participants at the measurement date.

As fair value is a market-based measure, the closest equivalent observable market pricing information is used to determine fair value. Adjustments to market values may be made having regard to the characteristics of the specific asset. The fair values of assets that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data.

To the extent possible, market information is extracted from either the principal market for the asset (ie the market with the greatest volume and level of activity for the asset or, in the absence of such a market, the most advantageous market available to the entity at the end of the reporting period (ie the market that maximises the receipts from the sale of the asset after taking into account transaction costs and transport costs).

For non-financial assets, the fair value measurement also takes into account a market participant's ability to use the asset in its highest and best use or to sell it to another market participant that would use the asset in its highest and best use.

#### **Fair Value Hierarchy**

AASB 13 requires the disclosure of fair value information by level of the fair value hierarchy, which categorises fair value measurement into one of three possible levels based on the lowest level that an

#### Notes to the Financial Statements

for the year ended 30 June 2015

#### Note 1: Summary of Significant Accounting Policies

input that is significant to the measurement can be categorised into as follows:

#### Level 1

Measurements based on quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

#### Level 2

Measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.

#### Level 3

Measurements based on unobservable inputs for the asset or liability.

The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data. If all significant inputs required to measure fair value are observable, the asset or liability is included in Level 2. If one or more significant inputs are not based on observable market data, the asset or liability is included in Level 3.

#### **Market approach**

Valuation techniques that use prices and other relevant information generated by market transactions for identical or similar assets or liabilities.

#### **Income approach**

Valuation techniques that convert estimated future cash flows or income and expenses into a single discounted present value.

#### **Cost approach**

Valuation techniques that reflect the current replacement cost of an asset at its current service capacity.

#### **Valuation techniques**

Each valuation technique requires inputs that reflect the assumptions that buyers and sellers would use when pricing the asset or liability, including assumptions about risks. When selecting a valuation technique, the Council gives priority to those techniques that maximise the use of observable inputs and minimise the use of unobservable inputs. Inputs that are developed using market data (such as publicly available information on actual transactions) and reflect the assumptions that buyers and sellers would generally use when pricing the asset or liability and considered observable, whereas inputs for which market data is not available about such assumptions are considered unobservable.

As detailed above, the mandatory measurement framework imposed by the Local Government (Financial Management) Regulations requires, as a minimum, all assets carried at a revalued amount to be revalued at least every 3 years.

#### (h) Depreciation of Non-Current Assets

All non-current assets having a limited useful life are separately and systematically depreciated over their useful lives in a manner which reflects the consumption of the future economic benefits embodied in those assets. Assets are depreciated from the date of acquisition or, in respect of internally constructed assets, from the time the asset is completed and held ready for use.

Capitalisation Threshold:

Plant & Equipment	\$2,000
Computer Equipment	\$2,000
Furniture & Equipment	\$2,000
Building Improvements	\$2,000
Land & Buildings	No Limit

Depreciation is recognised on a straight-line basis, using rates which are reviewed each reporting period. Major depreciation periods are:

Plant	5 to 15 years
Furniture & Equipment	4 to 10 years
Buildings	30 to 50 years
Computer Equipment	3 years
Work Equipment	5 to 15 years
Toys	3 years
Fleet Vehicles	
Fleet vehicles	3 years
Roads	50 years
Footpaths	,
- Concrete	50 years
- Asphalt	25 years
Drains	100 years
Reserves	,
- Passive Reserves	100 years
- Medians	50 years
- Civic Gardens	30 years
- Verges	30 years
- Active Reserves	20 years
Street Furniture	
- Crash Barriers	10 years
- Bus Shelters	20 years
- Seats	10 years
- Parking Signs	5 years
- Street Name Plates	10 years

The assets residual value and useful lives are reviewed and adjusted if appropriate, at the end of each reporting period. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in the Statement of Comprehensive Income. When revalued assets are sold, amounts included in the revaluation surplus relating to that asset are transferred to retained earnings.

#### (i) Financial Instruments

#### **Initial Recognition and Measurement**

Financial assets and financial liabilities are recognised when the Council becomes a part to the contractual provisions to the instrument. For financial assets, this is equivalent to the date that the Council commits itself to either the purchase or sale of the asset (i.e. trade date accounting is adopted).

Financial instruments are initially measured at fair value plus transaction costs, except where the instrument is classified 'at fair value through profit or loss', in which case transaction costs are expensed to profit or loss immediately.

### Notes to the Financial Statements

for the year ended 30 June 2015

### Note 1: Summary of Significant Accounting Policies

#### **Classification and Subsequent Measurement**

Financial instruments are subsequently measured at amortised cost using the effective interest rate method or cost.

Fair value represents the amount for which an asset could be exchanged or a liability settled, between knowledgeable, willing parties. Where available, quoted prices in a active market are used to determine fair value. In other circumstances, valuation techniques are adopted.

Amortised cost is calculated as:

- (a) the amount is which the financial asset or financial liability is measured at initial recognition;
- (b) less principal repayments;
- (c) plus or minus the cumulative amortisation of the difference, if any, between the amount initially recognised and the maturity amount calculated using the effective interest rate method; &
- (d) less any reduction for impairment.

The effective interest method used is to allocate interest income or interest expense over the relevant period and is equivalent to the rate that exactly discounts estimated future cash payments or receipts (including fees, transaction costs and other premiums of discounts) through the expected life (or when this cannot be reliably predicted, the contractual term of the financial instrument to the net carrying amount of the financial asset or financial liability. Revisions to expected future cash flows will necessitate an adjustment to the carrying value with a consequential recognition of an income or expense in profit or loss.

#### (i) Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are financial assets held for trading. A financial asset is classified in this category if acquired principally for the purpose of selling in the short term. Derivatives are classified as held for trading unless they are designated as hedges. Assets in this category are classified as current assets.

#### (ii) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for those with maturities greater than 12 months after the Statement of Financial Position date which are classified as non-current assets. Loans and receivables are included in trade and other receivables in the Statement of Financial Position.

#### (iii) Held-to-maturity investments

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturities that the Council's management has the positive intention and ability to hold to maturity. If Council were to sell other than an insignificant amount of held-to-maturity financial assets, the whole category would be tainted and reclassified as available-for-sale. Held-tomaturity financial assets are included in non-current assets, except for those with maturities less than 12 months from the reporting date, which are classified as current assets.

#### (iv) Available-for-sale financial assets

Available-for-sale financial assets, comprising principally marketable equity securities, are non-derivatives that are either designated in this category or not classified in any of the other categories. They are included in non-current assets unless management intents to dispose of the investment within 12 months of the Statement of Financial Position date. Investments are designated as available-for-sale if they do not have fixed maturities and fixed or determinable payments and management intends to hold them for the medium to long term.

#### (v) Financial Liabilities

Non-derivative financial liabilities (excluding financial guarantees) are subsequently measured at amortised cost.

#### Impairment

A financial asset is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events (a "loss event") having occurred, which will have an impact on the estimated future cash flows of the financial asset(s). In the case of available-for-sale financial assets, a significant or prolonged decline in the market value of the instrument is considered a loss event. Impairment losses are recognised in profit or loss immediately.

Also, any cumulative decline in fair value previously recognised in other comprehensive income is reclassified to profit or loss at this point. In the case of financial assets carried at amortised cost, loss events may include: indications that the debtors or a group of debtors are experiencing significant financial difficulty, default or delinquency in interest or principal payments; indications that they will enter bankruptcy or other financial reorganisation; and changes in arrears or economic conditions that correlate with defaults.

For financial assets carried at amortised cost (including loans and receivables), a separate allowance account is used to reduce the carrying amount of financial assets impaired by credit losses. After having taken all possible measures of recovery, if management establishes that the carrying amount cannot be recovered by any means, at that point the written-off amounts are charged to the allowance account or the carrying amount of impaired financial assets is reduced directly if no impairment amount was previously recognised in the allowance account.

#### Derecognition

Financial assets are derecognised where the contractual rights to receipt of cash flows expire or the asset is transferred to another party whereby the Council no longer has any significant continual involvement in the risks and benefits associated with the asset.

Financial liabilities are derecognised where the related obligations are discharged, cancelled or expired. The difference between the carrying amount of the financial liability extinguished or transferred to another party and the fair value of the consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in profit or loss.

#### (j) Fair Value Estimation

The fair value of financial assets and financial liabilities must be estimated for recognition and measurement or for disclosure purposes.

The fair value of financial instruments traded in active markets is determined using valuation techniques. Council uses a variety of methods and makes assumptions that are based on market conditions existing at each balance date. Quoted market prices or dealer quotes for similar instruments are used for long-term debt instruments held. Other techniques, such as estimated discounted cash flows, are used to determine fair value for the remaining financial instruments.

The nominal value less estimated credit adjustments of trade receivables and payables are assumed to approximate their fair

Notes to the Financial Statements for the year ended 30 June 2015

#### Note 1: Summary of Significant Accounting Policies

values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Council for similar financial instruments.

#### (k) **Provisions**

Provisions are recognised when the Council has a present legal or constructive obligation as a result of past events; it is more likely than not that an outflow of resources will be required to settle the obligation and the amount has been reliably estimated. Provisions are not recognised for future operating losses. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

#### (I) Leases

Leases of property, plant and equipment where the Council has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lease's inception at the lower of the fair value of the leased property and the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in other long term payables. Each lease payment is allocated between the liability and finance charges so as to achieve a constant rate on the finance balance outstanding. The interest element of the finance cost is charged to the Statement of Comprehensive Income over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The property, plant and equipment acquired under finance leases are depreciated over the shorter of the asset's useful life and the lease term. Lease payments under operating leases, where substantially all the risks and benefits remain with the lessor, are charged as expenses in the periods in which they are incurred.

#### (m) Impairment

In accordance with Australian Accounting Standards the Council's assets, other than inventories, are tested annually for impairment. Where such an indication exists, an estimate of the recoverable amount of the asset is made in accordance with *AASB 136 Impairment of Assets* and appropriate adjustments made. Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. Impairment losses are recognised in the Statement of Comprehensive Income.

For non-cash generating assets of the Council such as roads, drains, public buildings and the like, value in use is represented by the asset's written down replacement cost.

#### (n) Trade and Other Payables

Trade and other payables are carried at amortised cost. They represent liabilities for goods and services provided to the Municipality prior to the end of the financial year that are unpaid and arise when the Municipality becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured and are usually paid within 30 days of recognition.

#### (o) Interest-bearing Loans and Borrowings

All loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs.

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method. Fees paid of the establishment of loan facilities that are yield related are included as part of the carrying amount of the loans and borrowings.

Borrowings are classified as current liabilities unless the Council has an unconditional right to defer settlement of the liability for at least 12 months after the Statement of Financial Position date. Borrowing costs are recognised as an expense when incurred except where they are directly attributable to the acquisition, construction or production of a qualifying asset. Where this is the case, they are capitalised as part of the cost of the particular asset.

#### (p) Employee Benefits

#### Short-term employee benefits

Provision is made for the Council's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled. The Council's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the statement of financial position. The Council's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position.

#### Other long-term employee benefits

Provision is made for employees' long service leave and annual leave entitlements not expected to be settled wholly within 12 months after the end of the annual reporting period in which the employees render the related service. Other long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The Council's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Council does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

#### (q) Superannuation

The Council contributes to a number of Superannuation Funds on behalf of their employees. Contributions to defined contribution plans are recognised as an expense as they become payable. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available. Notes to the Financial Statements for the year ended 30 June 2015

#### Note 1: Summary of Significant Accounting Policies

#### (r) Borrowing Costs

Borrowing costs are recognised as an expense when incurred except where they are directly attributable to the acquisition, construction or production of a qualifying asset. Where this is the case, they are capitalised as part of the cost of the particular asset until such time as the asset is substantially ready for its intended use or sale.

#### (s) Investment in Associates

An associate is an entity over which the Council has significant influence. Significant influence is the power to participate in the financial operating policy decisions of that entity but is not control or joint control of those policies. Investments in associates are accounted for in the financial statements by applying the equity method of accounting, whereby the investment is initially recognised at cost and adjusted thereafter for the post-acquisition change in the Council's share of net assets of the associate In addition, the Council's share of the profit or loss of the associate is included in the Council's profit or loss.

The carrying amount of the investment includes, where applicable, goodwill relating to the associate. Any discount on acquisition, whereby the Council's share of the net fair value of the associate exceeds the cost of investment, is recognised in profit or loss in the period in which the investment is acquired.

Profits and losses resulting from transactions between the Council and the associate are eliminated to the extent of the Council's interest in the associate.

When the Council's share of losses in an associate equals or exceeds its interest in the associate, the Council discontinues recognising its share of further losses unless it has incurred legal or constructive obligations or made payments on behalf of the associate. When the associate subsequently makes profits, the Council will resume recognising its share of those profits once its share of the profits equals the share of the losses not recognised.

#### (t) Interests in Joint Arrangements

Joint arrangements represent the contractual sharing of control between parties in a business venture where unanimous decisions about relevant activities are required. Separate joint venture entities providing joint venturers with an interest to net assets are classified as a joint venture and accounted for using the equity method. Refer to note 1(s) for a description of the equity method of accounting.

Joint venture operations represent arrangements whereby joint operators maintain direct interests in each asset and exposure to each liability of the arrangement. The Council's interests in the assets, liabilities, revenue and expenses of joint operations are included in the respective line items of the financial statements. Information about the joint ventures is set out in Note 17.

# (u) Rates, Grants, Donations and Other Contributions

Rates, grants, donations and other contributions are recognised as revenues when the local government obtains control over the assets comprising the contributions. Control over assets acquired from rates is obtained at the commencement of the rating period or, where earlier, upon receipt of the rates.

Where contributions recognised as revenues during the reporting period were obtained on the condition that they be expended in a particular manner or used over a particular period, and those conditions were undischarged as at the reporting date, the nature of and amounts pertaining to those undischarged conditions are disclosed at Note 2(d). That note also discloses the amount of contributions recognised as revenues in a previous reporting period which were obtained in respect of the local government's operation for the current reporting period.

#### (v) Current and Non-Current Classification

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Council's operation cycle. In the case of liabilities where the Council does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current even if not expected to be realised in the next 12 months except for land held for resale where it is held as noncurrent based on the Council's intentions to release for sale.

#### (w) Rounding Off Figures

All figures shown in this annual financial report, other than a rate in the dollar, are rounded to the nearest dollar.

#### (x) Comparative Figures

Where required, comparative figures have been adjusted to conform with changes in presentation for the current financial year. When the Council applies an accounting policy retrospectively, makes a retrospective restatement or reclassifies items in its financial statement, a statement of financial position as at the beginning of the earliest period will be disclosed.

#### (y) Budget Comparative Figures

Unless otherwise stated, the budget comparative figures shown in this annual financial report relate to the original budget estimate for the relevant item of disclosure.

#### (z) Investment Property

Investment property, principally comprising freehold office buildings, is held for long-term rental yields. Investment property is carried at fair value, representing open-market value determined annually by external users.

#### (aa) Non-Current Assets (or Disposal Groups) "Held for Sale" & Discontinued Operations

Non-current assets (or disposal groups) are classified as held for sale and stated at the lower of either (i) their carrying amount and (ii) fair value less costs to sell, if their carrying amount will be recovered principally through a sale transaction rather than through continuing use.

The exception to this is plant and motor vehicles which are turned over on a regular basis. Plant and motor vehicles are retained in Non Current Assets under the classification of Property, Plant and Equipment - unless the assets are to be traded in after 30 June and

### Notes to the Financial Statements

for the year ended 30 June 2015

### Note 1: Summary of Significant Accounting Policies

the replacement assets were already purchased and accounted for as at 30 June.

For any assets or disposal groups classified as Non-Current Assets "held for sale", an impairment loss is recognised at any time when the assets carrying value is greater than its fair value less costs to sell.

Non-current assets "held for sale" are not depreciated or amortised while they are classified as "held for sale".

Non-current assets classified as "held for sale" are presented separately from the other assets in the balance sheet.

A Discontinued Operation is a component of Council that has been disposed of or is classified as "held for sale" and that represents a separate major line of business or geographical area of operations, is part of a single co-ordinated plan to dispose of such a line of business or area of operations, or is a subsidiary acquired exclusively with a view to resale.

The results of discontinued operations are presented separately on the face of the Statement of Comprehensive Income.

#### (ab) Intangible Assets

Council has not classified any assets as Intangible.

(ac) New Accounting Standards and Interpretations for Application in Future Periods

Certain new (or amended) accounting standards and interpretations have been published that are not mandatory for reporting periods ending 30 June 2015.

#### Council has not adopted any of these standards early.

In the current year, Council adopted all of the new and revised Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) that are relevant to its operations and effective for the current reporting period. The adoption of the new suite of consolidation standards resulted in some material changes to Council's accounting policies. These standards comprised AASB 10 Consolidated Financial Statements, AASB 11 Joint Arrangements, AASB 12 Disclosure of Interests in Other Entities, AASB 127 (revised 2011) Separate Financial Statements and AASB 128 (revised 2011) Investments in Associates and Joint Ventures. The impact of these standards is summarised below:

AASB 11 Joint Arrangements replaced AASB 131 Interests in Joint Ventures for the 2014-15 financial year. AASB 11 specifies how a joint arrangement, where two or more parties have control, should be accounted for. Under AASB 11 joint arrangements are classified as either joint operations or joint ventures and this, in turn, determines the accounting treatment. This classification is based on the rights and obligations of the parties and, when relevant, other facts and circumstances. Previously, AASB 131 classified joint arrangements based primarily on legal form. Under that standard there were three types of joint arrangements - jointly controlled entities, jointly controlled operations and jointly controlled assets.

AASB 12 is a new disclosure standard applicable to interests in subsidiaries, joint ventures, associates and unconsolidated structured entities. In general applying this standard has resulted in greater disclosure (refer Note 17).

Council has not applied any Australian Accounting Standards and Interpretations that have been issued but are not yet effective. Council applies standards and interpretations in accordance with their respective commencement dates.

At the date of authorisation of the financial report, AASB 9 Financial Instruments is the only new accounting standard with a future application date that is expected to have a material impact on council's financial statements.

AASB 9, which replaces AASB 139 Financial Instruments: Recognition and Measurement, is effective for reporting periods beginning on or after 1 January 2018 and must be applied retrospectively. The main impact of AASB 9 is to change the requirements for the classification, measurement and disclosures associated with financial assets. Under the new requirements the four current categories of financial assets stipulated in AASB 139 will be replaced with two measurement categories: fair value and amortised cost and financial assets will only be able to be measured at amortised cost where very specific conditions are met.

Due to its recent release, Council is still reviewing the way that revenue is measured and recognised to identify whether AASB 15 Revenue from Contracts with Customers will have a material impact. To date no impact has been identified.

AASB 15 is effective from 1 January 2017 and will replace AASB 118 Revenue, AASB 111 Construction Contracts and a number of Interpretations. It contains a comprehensive and robust framework for the recognition, measurement and disclosure of revenue from contracts with customers.

From 1 July 2016 AASB 124 Related Party Disclosures will apply to Council. This means that council will disclose more information about related parties and transactions with those related parties. Council is currently preparing for this change by identifying related parties. Related parties will include the Mayor, councillors and some council staff. In addition the close family members of those people and any organisations that they control or are associated with will be classified as related parties.

The amended Australian Accounting Standards and Interpretations which were issued at the date of authorisation of the financial report, but have future commencement dates are not likely to have a material impact on the financial statements.

#### Not applicable to Local Government per se;

There are no other standards that are "not yet effective" and expected to have a material impact on Council in the current or future reporting periods and on foreseeable future transactions.

#### (ad) Disclaimer

Nothing contained within these statements may be taken to be an admission of any liability to any person under any circumstance.

### Notes to the Financial Statements

for the year ended 30 June 2015

### Note 2. Operating Revenues and Expenses (continued)

### (b). Statement of Objectives, Reporting Programs and Nature or Type

City of Bayswater is dedicated to providing high quality services to the community through the various service orientated programs which it has established.

### **REPORTING PROGRAM DESCRIPTIONS**

Council operations that are disclosed encompass the following service orientated activities/programs:

### GOVERNANCE

Objective: To provide a decision making process for the efficient allocation of scarce resources.

Activities: Includes the activities of members of council and the administrative support available to the council for the provision of governance of the district. Other costs relate to the task of assisting elected members and ratepayers on matters which do not concern specific council services.

### **GENERAL PURPOSE FUNDING**

Objective: To collect revenue to allow for the provision of services.

Activities: Rates, general purpose government grants, and interest revenue.

### LAW, ORDER, PUBLIC SAFETY

Objective: To provide services to help ensure a safer and environmentally conscious community.

Activities: Supervision and enforcement of various local laws relating to fire prevention, animal control and protection of the environment and other aspects of public safety including emergency services.

#### HEALTH

Objective: To provide services to achieve community and environmental health

Activities: Maternal and infant health facilities, immunisation, meat inspection services, inspection of food outlets, noise control and pest control services.

#### EDUCATION AND WELFARE

Objective: To provide services to children, youth, the elderly and disadvantaged persons

Activities: Pre-school and other education services, child minding facilities, playgroups, senior citizens" centres, meals on wheels and home care services. Aged Care facilities.

#### HOUSING

Objective: To provide and maintain housing . Activities: Provision and maintenance of housing.

#### **COMMUNITY AMENITIES**

Objective: To provide services required by the community.

Activities: Rubbish collection services, operation of rubbish disposal sites, litter control, construction and maintenance of urban storm water drains, protection of the environment and administration of town planning schemes and public conveniences.

### **RECREATION AND CULTURE**

Objective: To establish and effectively manage infrastructure and resources which will help the social wellbeing of the community.

Activities: Maintenance of public halls, civic centre, aquatic centre, beaches, recreation centres and various sporting facilities. Provision and maintenance of parks, gardens and playgrounds. Operation of library and other cultural facilities.

### TRANSPORT

Objective: To provide safe, effective and efficient transport services to the community.

Activities: Construction (if not capitalised) and maintenance of roads, streets, footpaths, depots, cycleways, parking facilities and traffic control. Cleaning of streets and maintenance of street trees, street lighting etc.

### Notes to the Financial Statements

for the year ended 30 June 2015

### Note 2. Operating Revenues and Expenses (continued)

### (b). Statement of Objectives, Reporting Programs and Nature or Type (continued)

### **ECONOMIC SERVICES**

Objective: To help promote the shire and its economic wellbeing.

Activities: Tourism and area promotion. Provision of services including weed control, vermin control and standpipes. Building control.

### **OTHER PROPERTY & SERVICES**

Objective: To monitor and control council's overheads operating accounts. Activities: Private works operation, plant repair and operation costs and engineering operation costs.

### (c) Nature or Type Classifications

City of Bayswater is required by the Australian Accounting Standards to disclose revenue and expenditure according to its nature or type classification. The following nature or function descriptions are also required by State Government regulations.

### REVENUE

### Rates

All rates levied under the Local Government Act 1995. Includes general, differential, specific area rates, minimum rates, interim rates, back rates, ex-gratia rates, less discounts offered. Excludes administration fees, interest on instalments, interest on arrears, service charges and waste and sewerage rates.

### **Operating Grants, Subsidies and Contributions**

Refer to all amounts received as grants, subsidies and contributions that are not non-operating grants.

### Non-Operating Grants, Subsidies and Contributions

Amounts received specifically for the acquisition, construction of new or the upgrading of non-current assets paid to a local government, irrespective of whether these amounts are received as capital grants, subsidies, contributions or donations.

### **Profit on Asset Disposal**

Profit on the disposal of assets including gains on the disposal of long term investments. Losses are disclosed under the expenditure classifications.

#### **Fees and Charges**

Revenue (other than service charges) from the use of facilities and charges made for local government services, sewerage rates, rentals, hire charges, fee for service, photocopying charges, licences, sale of goods or information, fines, penalties and administration fees.

#### **Interest Earnings**

Interest and other items of a similar nature received from bank and investment accounts, interest on rate instalments, interest on rate arrears and interest on debtors.

#### **Other Revenue**

Other revenue, which cannot be classified under the above headings, includes dividends, discounts, rebates, etc.

### Notes to the Financial Statements

for the year ended 30 June 2015

### Note 2. Operating Revenues and Expenses (continued)

### (c) Nature or Type Classifications (continued)

### EXPENDITURE

### **Employee Costs**

All costs associated with the employment of persons such as salaries, wages, allowances, benefits such as vehicle and housing, superannuation, employment expenses, removal expenses, relocation expenses, worker's compensation insurance, training costs, conferences, safety expenses, medical examinations, fringe benefits tax etc.

### **Material and Contracts**

All expenditure on materials, supplies and contracts not classified under other headings. These include supply of goods and materials, legal expenses, consultancy, maintenance agreements, communication expenses, advertising expenses, membership, periodicals, publications, hire expenses, rental, leases, postage and freight etc.

### Utilities (Gas, Electricity, Water, etc.)

Expenditures made to respective agencies for the provision of power, gas or water. Excludes expenditure incurred for the re-instatement of road works on behalf of these agencies.

### **Depreciation & Amortisation on Non-Current Assets**

Depreciation and amortisation expense raised on all classes of assets.

### Loss on Asset Disposal

Loss on the disposal of fixed assets.

#### **Interest Expenses**

Interest and other costs of finance paid, including costs of finance for loan debentures, overdraft accommodation and re-financing expenses.

### Insurance

All insurance other than worker's compensation and health benefit insurance included as a cost of employment.

### **Other Expenditure**

Statutory fees, taxes, provision of bad debts. Donations and subsidies made to community groups.

<sup>1</sup> The City of Bayswater Aged Persons Homes holds \$22,965,491 in refundable contributions (Accommodation Bonds). These contributions have been classified as current liabilities as the provider does not have the right to defer settlement. However the expected settlement of the liability is expected to be greater than twelve months.

Accommodation bonds are charged for admittance in accordance with current State and Federal Government regulations. These fees can vary according to each individuals financial status and, in accordance with current policy embodying the relevant regulations, varying amounts are deducted for "Retention" over a period of 5 years.

All of the cash backed reserve accounts are supported by money held in financial institutions and match the amounts shown as restricted cash in Note 3 to this financial report.

In accordance with council resolutions in relation to each reserve account, the purpose for which the reserves are set aside are as follows:

## **City Buildings & Amenities**

For the purpose of preserving and renewing Council's buildings.

### **Bore & Reticulation**

For the installation of new bores and reticulation, and the replacement of old bore and reticulation systems, due to wear and tear.

### Building Furniture & Equipment

To provide a cash backed reserve for the purpose of furniture & equipment required in Council's buildings.

### Major Capital Works

To finance the cost of major capital works programs as approved by Council.

### **Plant & Works Equipment**

To fund the cost of acquiring plant & equipment needed to provide for the day-to-day operational requirements of the City.

### **Workers Compensation**

To finance Workers' Compensation costs in excess of premium deposits, using the burning cost method (as per Council's Workers Compensation Policy).

### Long Service Leave & Entitlements

To provide for the payment to employees of Long Service Leave and other approved entitlements.

### **Bayswater Waves Aquatic Centre**

To fund asset management requirements of the Bayswater Waves Aquatic Centre.

### The RISE

To fund asset managements requirements of the RISE.

### **Maylands Waterland**

To fund asset management requirements of the Maylands Waterland facility.

### Aged Persons Homes - General Reserves

This reserve restricts funds held for the Independent Living Units and Residential Care Facilities owned and controlled by the City. These funds are managed in accordance with the relevant statutory requirements and policies.

## Notes to the Financial Statements

for the year ended 30 June 2015

## Note 12. Reserves - Cash/Investment Backed (continued)

### **Aged Persons Homes - Prudential Requirements**

To provide a cash backed prudential reserve to meet the accommodation obligations for Residential Care Facilities and Independent Living Units.

### Aged Persons Homes - Employee Entitlements

To provide restricted funds to meet the City's contractual obligations for Residential Care Facilities and Independent Living Unit activities.

### Civic Centre

To make provision for the asset management needs of the Civic Centre

### Roads & Drainage

To set aside funds for the asset management requirements of the City's road and drainage infrastructure.

### Footpath/Cycleway

To set aside funds for the asset management requirements of the City's footpath and cycleways infrastructure.

### **Playground & Parks**

To set aside funds for the asset management requirements of the City's playground and parks infrastructure.

### **Golf Courses**

To set aside funds for the asset management requirements of the City's golf courses.

#### **Street Scapes**

To provided for the renewal of urban streetscapes.

## Information Technology

To provided for the maintenance of the City's information technology requirements including general computer replacements for elected members and employees

### **Eric Singleton Bird Sanctuary**

To set aside funds for the asset management requirements of the Eric Singleton Bird Sanctuary.

### Les Hansman Centre Development

To set aside funds for the redevelopment of the Les Hansman Community Centre.

### Senior Citizens Building

To set aside funds for the asset management requirements of the City's senior citizens centres.

### **Morley City Centre**

To provided funds for the future development of the Morley City Centre.

### **Landfill Restoration**

To provide funding for the review and any restoration requirements of the Swan River Foreshore.

### **Sustainable Environment**

To provide funding for strategic environmental projects such as foreshore rehabilitation and the Eric Singleton Bird Sanctuary

## **Morley Sport & Recreation Centre**

To set aside funds for the asset management requirements of the Morley Sport & Recreation Centre.

## **Community Housing**

To set aside funds for the asset management requirements of Community Housing.

## **General Waste Management**

To set aside funds for the future development of Waste Management.

## **Child Care Association - Building Reserve**

To provide funding for future building upgrades and development.

### Child Care Association - Equipment Reserve To provide funds for equipment replacements.

Child Care Association - Capital Works Reserve For the development of care facilities.

Child Care Association - Motor Vehicle reserve To provide funds for the replacement of motor vehicles.

# Notes to the Financial Statements for the year ended 30 June 2015

# Note 14. Notes to the Statement of Cash flows

(a). Reconciliation of Cash	2015 Actual	2015 Budget	2014 Actual	2015 Actual	2014 Actual
	Actual	Budget	Actual	Actual	
(a). Reconciliation of Cash					Aviual
For the purposes of the Statement of Cash Flows, cash includes cash on hand and cash equivalents, net of outstanding bank overdrafts. Cash at the end of the reporting period is reconciled to the related items in the Statement of Financial Position as follows:					
Cash and Cash Equivalents 3	57,382,055	46,576,083	53,402,380	59,502,147	55,411,235
(b). Reconciliation of Net Cash Provided By Operating Activities to Net Result					
Net Result	3,160,767	3,967,241	431,298,405	3,319,654	431,196,197
Depreciation	10,143,709	7,971,000	8,970,403	10,281,917	9,110,929
Write Down (Up) in Fair Value of Investments	964,905	-	-	964,905	-
Write down of Property, Plant and Equipment	-	-	-	-	96,958
(Profit)/Loss on Sale of Assets	(16,695)	168,393	391,997	(20,873)	391,997
Net Losses/(Gains) on Discontinued Operations	-	-	-	-	(103,413)

## Notes to the Financial Statements for the year ended 30 June 2015

# Note 17. Joint Ventures

Council's objectives can and in some cases are best met through the use of separate entities & operations.

These operations and entities range from 100% ownership and control through to lower levels of ownership and control via co-operative arrangements with other Councils, Bodies and other Outside Organisations.

The accounting and reporting for these various entities, operations and arrangements varies in accordance with accounting standards.

The City of Bayswater is in joint venture with:

(a) Homeswest - Community Housing Project

Ten (10) Houses.

- Stage 1 No 2 Haddrill Street (4 Units)

- Stage 2 No 20 Francis Street (6 Units)

The City has a 25% interest in the project. Operating costs are funded by the City from rental received on the houses. Excess income over expenditure is retained as a restricted cash item for future community housing projects.

### (b) City of Swan - Altone Park - a community, sporting and recreational facility

The financial statements reflect the City of Bayswater's interest in the joint development with the City of Swan for the development of a community recreation and sporting facility at Altone Park.

The City of Bayswater has the following interest in the assets and liabilities of the venture.

- Pavilion - 50%

- Recreation Centre - 50%

- Library - 33%

Operating costs are shared on the basis of each interest.

The City's share of the assets and liabilities to each venture are recorded in the statement of financial position under the following classifications:

	2015	2014
<u>\$</u>	Actual	Acual
Buildings - Community Housing Project - Altone Park	1,355,562	1,370,449 959,008

### (c) Eastern Metropolitan Regional Council

The City of Bayswater is a participant in the Eastern Metropolitan Regional Council (EMRC).

Comprising six member councils it is primariy concerned with refuse, environmental and safety services.

	2015	%	2014
City of Bayswater	29,076,031	19.70%	26,435,434
Town of Bassendean	6,702,763	4.54%	6,057,177
Shire of Mundaring	16,479,545	11.17%	15,138,568
City of Swan	53,502,350	36.24%	47,467,605
Shire of Kalamunda	24,996,679	16.93%	22,716,221
City of Belmont	16,858,963	11.42%	15,247,744
	147,616,331	100%	133,062,749

# Notes to the Financial Statements for the year ended 30 June 2015

# Note 17. Joint Ventures (continued)

	2015	2014
	Council	Council
	Actual	Actual
The City's interest in the assets and liabilities of the EMRC is as follo	ows:	
Current Assets	15,466,205	14,386,422
Non-Current Assets	16,054,138	14,467,601

NPV of Required Capital Expenditure over 10 years	650,577,407	52.20,0			2

Notes

<sup>(1)</sup> This is a modified commercial ratio designed to focus on the liquidity position of the Council that has arisen from past year's transactions.

<sup>(2)</sup> This ratio is the measurement of Council's ability to repay its debt including lease payments.

<sup>(3)</sup> This ratio is the measurement of Council's ability to cover its costs through its own revenue efforts.

<sup>(4)</sup> This ratio is a measure of Council's ability to cover its operational costs and have revenues available for capital funding or other purposes.

<sup>(5)</sup> This ratio measures the extent to which depreciable assets have been consumed by comparing their written down value to their replacement cost.

(6) This ratio indicates whether Council is replacing or renewing existing non-financial assets at the same rate that its overall asset stock is wearing out.

<sup>(7)</sup> This ratio is a measure of the ability of Council to fund its projected asset renewal / replacements in the future.

# Note 32. Financial Risk Management

Council's activities expose it to a variety of financial risks including (1) price risk, (2) credit risk, (3) liquidity risk and (4) interest rate risk.

The Council's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the Council.

Council does not engage in transactions expressed in foreign currencies and is therefore not subject to foreign currency risk.

Financial risk management is carried out by Council's Finance Section under policies approved by the Council.

The City held the following financial instruments at balance date.

		Carryii	ng Value	Fair V	alue
	Notes	2015	2014	2015	2014
Financial Assets					
Cash and Cash Equivalents	3	57,382,055	53,402,380	57,382,055	53,402,380
Receivables (Current & Non-Current)	5	5,578,908	6,536,110	5,578,908	6,536,110
Investment in Joint Venture		29,254,916	26,435,434	29,254,916	26,435,434
		92,215,878	86,373,924	92,215,878	86,373,924
Financial Liabilities					
Payables (Current & Non-Current)	9	5,494,315	4,717,575	5,494,315	4,717,575
Refundable Contributions	9	22,965,491	22,391,836	22,965,491	22,391,836
Borrowings (Current & Non-Current)	10	87,665	157,831	81,906	148,854
		28,547,471	27,267,242	28,541,712	27,258,265

Fair Value is determined as follows:

- Cash & Cash Equivalents, Receivables, Payables - are estimated to be the carrying value which approximates market value.

- Borrowings & Held to Maturity Investments - estimated future cash flows discounted by the current market interest rates applicable to assets & liabilities with similar risk profiles.

# Notes to the Financial Statements

for the year ended 30 June 2015

## Note 32. Financial Risk Management (continued)

## (a). Cash & Cash Equivalents, Financial assets "at Fair Value through the Profit & Loss", "Available-for-sale" financial assets & "Held-to-maturity" Investments

Council's objective is to maximise its return on cash & investments whilst maintaining an adequate level of liquidity and preserving capital.

Council's Finance Section manages the Cash & Investments portfolio with the assistance of independent advisors.

Council has an Investment Policy which complies with the relevant legislation. The policy is regularly reviewed by Council and an Investment Report is tabled before Council on a monthly basis setting out the make-up and performance of the portfolio.

The major risk associated with Investments is price risk - the risk that the capital value of Investments may fluctuate due to changes in market prices, whether the changes are caused by factors specific to individual financial instruments or their issuers or are caused by factors affecting similar instruments traded in a market.

Cash & Investments are also subject to interest rate risk - the risk that movements in interest rates could affect returns and income.

A further risk associated with Cash & Investments is credit risk - the risk that the investment counterparty will not complete their obligations particular to a financial instrument, resulting in a financial loss to Council - be it of a capital or income nature.

Council manages these risks by diversifying its portfolio and only purchasing investments with high credit ratings or capital guarantees in accordance with investment restrictions prescribed in the Local Government (Financial Management) Regulations 1996.

	30-Jun-15 \$	30-Jun-14 \$
Impact of a 1% <sup>(1)</sup> movement in interest rates on cash and investments		
Equity	573,820	534,024
Statement of Comprehensive Income	573,820	534,024

### Notes:

 Sensitivity percentages based on management's expectations of future possible market movements. (Price movements calculated on investments subject to fair value adjustments. Interest rate movements calculated on cash, cash equivalents and managed funds.)

2. Maximum impact.

## (b). Receivables

Council's major receivables comprise (i) Rates & Annual charges and (ii) User Charges & Fees.

The major risk associated with these receivables is credit risk - the risk that debts due and payable to Council may not be repaid.

Council manages this risk by monitoring outstanding debt and employing stringent debt recovery procedures. It also encourages ratepayers to pay their rates by the due date through incentives.

Credit risk on rates and annual charges is minimised by the ability of Council to secure a charge over the land relating to the debts that is, the land can be sold to recover the debt. Council is also able to charge interest on overdue rates & annual charges at higher than market rates which further encourages the payment of debt.

The level of outstanding receivables is reported to Council monthly and benchmarks are set and monitored for acceptable collection performance.

Council makes suitable provision for doubtful receivables as required and carries out credit checks on most non-rate debtors.

There are no material receivables that have been subjected to a re-negotiation of repayment terms.

# Notes to the Financial Statements

for the year ended 30 June 2015

## Note 32. Financial Risk Management (continued)

A profile of Council's receivables credit risk at balance date follows:

	30-Jun-15	30-Jun-14
	%	%
Percentage of Rates and Annual Charges		
Current	48.17%	49.45%
Overdue	51.83%	50.55%
Percentage of Other Receivables		
Current	92.46%	91.66%
Overdue	7.54%	8.34%

## (c). Payables & Borrowings

Payables & Borrowings are both subject to liquidity risk - the risk that insufficient funds may be on hand to meet payment obligations as and when they fall due.

Council manages this risk by monitoring its cash flow requirements and liquidity levels and maintaining an adequate cash buffer.

Payment terms can be extended & overdraft facilities drawn upon in exttenuating circumstances.

The contractual undiscounted cash outflows (ie. principal and interest) of Council's Payables & Borrowings are set out in the Liquidity Table below:

	Due	Due	Due	Total	Carrying
	within	between	after	contractual	values
	1 year	1 & 5 years	5 years	cash flows	
2015					
Payables	5,494,315	-	-	5,494,315	5,494,315
Refundable Contributions	-	-	-	22,965,491	22,965,491
Borrowings	58,027	40,541	6,755	105,323	87,665
	5,552,342	40,541	6,755	28,565,129	28,547,471
2014					
Payables	4,717,575	-	-	4,717,575	4,717,575
Refundable Contributions	-	-	-	22,391,836	22,391,836
Borrowings	80,417	93,164	12,159	185,740	157,831
-	4,797,992	93,164	12,159	27,295,151	27,267,242

<sup>1</sup> The City of Bayswater Aged Persons Homes holds \$22,965,491 in refundable contributions (Accommodation Bonds). These contributions have been classified as current liabilities as the provider does not have the right to defer settlement. However the expected settlement of the liability is expected to be greater than twelve months.

Accommodation bonds are charged for admittance in accordance with current State and Federal Government regulations. These fees can vary according to each individuals financial status and, in accordance with current policy embodying the relevant regulations, varying amounts are deducted for "Retention" over a period of 5 years.

Borrowings are also subject to interest rate risk - the risk that movements in interest rates could adversely affect funding costs & debt servicing requirements. Council manages this risk by borrowing long term and fixing the interest rate on a basis that is most suitable for the circumstance. Council officers regulary review interest rate movements to determine if it would be advantageous to refinance or renegotiate part, or all of the loan portfolio.

The following interest rates were applicable to the Council's Borrowings at balance date:

Weighted	Balance	Weighted	Balance
average interest		average interest	Dalaille
rate %	\$	rate %	\$
4.72%	87,666 87,666	1.39% _	157,831 157,831
	interest rate %	interest rate % \$ 4.72% 87,666	interest         interest           rate %         \$         rate %           4.72%         87,666         1.39%

Notes:

1. The interest rate risk applicable to Variable Rate Bank Loan is not considered significant.

# Notes to the Financial Statements

for the year ended 30 June 2015

# Note 33. Fair Value Measurements

The fair value of assets and liabilities must be estimated in accordance with various Accounting Standards for either recognition and measurement requirements or for disclosure purposes.

AASB 13 requires disclosure of fair value measurements by level of the following fair value measurement hierarchy:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities,

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability either directly or indirectly, Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The City's land, buildings and infrastructure assets were revalued in 2014 (Plant & Equipment were revalued in 2013). Additions since valuation to 30 June 2014 are at cost. The City of Bayswater Child Care Association assets and liabilities are carried at cost and have been excluded.

## (1) The following table presents all assets and liabilities that have been measured & recognised at fair values:

	Fair Value Measurement using:

## (2) Transfers between Level 1 & Level 2 Fair Value Hierarchies

During the year, there were no transfers between Level 1 and Lervel 2 Fair Value hierarchies for recurring fair value measurements.

## Notes to the Financial Statements

for the year ended 30 June 2015

## Note 33. Fair Value Measurements (continued)

### (3) Valuation techniques used to derive Level 2 and Level 3 Fair Values

### (1) Recurring Value Methods

The following methods are used to determine the fair value measurements.

The City's Land and Buildings were revalued in 2014 by APV Valuers & Asset Management.

### Land

Level 2 valuation inputs were used to value land held in freehold title as well as land used for special purpose which is restricted under current zoning rules.

The valuation of freehold (saleable) land has been carried out using the market approach and they have been assessed on the basis of the estimated amount which each interest in each property being valued might reasonably be expected to realise in an exchange between market participants given highest and best use.

The most significant inputs into this valuation approach are price per square metre.

The valuation of restricted or otherwise non-saleable land has been valued using the cost approach.

### **Specific Considerations**

Contaminated Sites - Several sites valued are deemed to be potentially contaminated by activities carried out by council. These valuations represent the current replacement cost of the land the council would need to acquire "non-contaminated" land and as such any instances or possibilities of contamination have been disregarded.

Zonings - A number of parcels of land have been given zonings that relate to public open space, conservation areas and specific locality zonings. These zonings are not representative of surrounding land use. The high level of development restrictions would not be considered normal in a open market situation.

Valuation has been based on the highest and best use of the land. In an open market situation these properties would be zoned similarly to surrounding land uses.

It should be noted that there is no evidence of sales within specific zoned areas.

Sale prices under comparable land sites in close proximity are adjusted for key attributes such as property size.

The most significant inputs into this valuation approach are price per square metre.

### Buildings

### Level 2 Valuation Inputs

These were used to determine the fair value of a range of properties. This included the bulk of residential and commercial properties.

The residential properties fair value has been derived from sales prices of comparable properties after adjusting for differences in key attributes such as property size. The most significant inputs into this valuation were price per metre.

### Level 3 Valuation Inputs

Specialised buildings were valued using professionally qualified Registered Valuers. The approach estimated the replacement cost for for each building by componentising the buildings into significant parts with different useful lives and taking into account a range of factors. While the unit rates based on square metre could be supported by market evidence (Level 2) other inputs (such as estimates of residual value, useful life, pattern of consumption and asset condition) required extensive professional judgement and impacted significantly on the final determination of fair value. As such these assets were classified as having level 3 valuation inputs.

### **Plant & Equipment**

Plant and Equipment fair values were determined by independent valuers as at 30 June 2013.

Subsequent to the 2013 council's revalued assets are reviewed to ensure that the carrying amount does not differ significantly from that determined using fair value at reporting date.

Level 2 valuation inputs have been applied having regard to the condition and useful life of the asset class except for computer equipment which has been valued at Level 3.

# Notes to the Financial Statements

for the year ended 30 June 2015

## Note 33. Fair Value Measurements (continued)

### \$

### Infrastructure

All council infrastructure assets were fair valued using a depreciated replacement cost valuation technique. This method used assets current replacement cost less accumulated depreciation calculated on the basis of such cost to reflect the already consumed or expired future economic benefits of the asset. The gross cost of replacing the full service potential of the asset was established then adjusted to take into account the expired service potential of the asset.

The current replacement cost was measured by referencing the lowest cost at which the asset could be obtained in the normal course of business.

The total cost values have been calculated using work code unit costs based on current tender and general market rates.

All council infrastructure has been valued at fair value utilizing in house professional Asset Management staff.

Level 3 valuation inputs have been applied to all asset categories.

### **Infrastructure Categories**

### Roads

The road asset comprises seal, Pavement and Kerbing components.

The City of Bayswater's sealed road length is 351.4 Km and does not include MRWA controlled roads.

Valuation methodology comprises

- (1) Current replacement cost to replace the entire network : Current Replacement Cost = Unit Cost X Quantity
- (2) Depreciated Cost is the value the asset has deteriorate : Valuation Depreciation Rate (Critical Life) = (100/Critical Life (Years) % Per Annum

Critical Life - The lowest calculated life of longevity in years between "Conditioned Assessed Life and Design Assessed Life (Annual Revaluation)."

### **Footpaths**

The footpath network comprises

Concrete Paths Brick Paved Paths Asphalt Paths Slab Paths

The City of Bayswater's footpath length is 317.2 Km.

Valuation methodology comprises

- (1) Current replacement cost to replace the entire network : Current Replacement Cost = Unit Cost X Quantity
- (2) Depreciated Cost is the value the asset has deteriorate : Valuation Depreciation Rate (Critical Life) = (100/Critical Life (Years)
   % Per Annum

Critical Life - The lowest calculated life of longevity in years between "Conditioned Assessed Life and Design Assessed Life (Annual Revaluation)

### Drainage

The drainage network comprises Pits, Covers and Pipes

The City of Bayswater's length of pipes is 209.7KM

Valuation methodology comprises

- (1) Current replacement cost to replace the entire network : Current Replacement Cost = Unit Cost X Quantity
- (2) Depreciated Cost is the value the asset has deteriorate : Valuation Depreciation Rate (Critical Life) = (100/Critical Life (Years) % Per Annum

Critical Life - The lowest calculated life of longevity in years between "Conditioned Assessed Life and Design Assessed Life (Annual Revaluation)

# Notes to the Financial Statements

for the year ended 30 June 2015

## Note 33. Fair Value Measurements (continued)

\$

### Parks/Reserves/Car Parking

Valuation methodology comprises

- (1) Current replacement cost to replace the entire network : Current Replacement Cost = Unit Cost X Quantity
- (2) Depreciated Cost is the value the asset has deteriorate : Valuation Depreciation Rate (Critical Life) = (100/Critical Life (Years) % Per Annum

Critical Life - The lowest calculated life of longevity in years between "Conditioned Assessed Life and Design Assessed Life (Annual Revaluation)

### **Miscellaneous Infrastructure**

The components split out to establish fair value for this category comprise the following Bus Shelters Public Litter Bins Lighting Entry Statements

Signage Poles Street Signs and Parking Signs

Valuation methodology comprises

- (1) Current replacement cost to replace the entire network : Current Replacement Cost = Unit Cost X Quantity
   (2) Depreciated Cost is the value the asset has deteriorate : Valuation Depreciation Rate (Critical Life) = (100/Critical Life (Years))
  - % Per Annum

Critical Life - The lowest calculated life of longevity in years between "Conditioned Assessed Life and Design Assessed Life (Annual Revaluation)

### (5). Disclosed Fair Value Measurements

The following assets and liabilities are not measured at fair value in the statement of financial position, but their fair values are disclosed in the notes:

- Borrowings

The following table provides the level of fair value hierachy within which the disclosed fair value measurements are caregorised in there entirety and a dscription of the valuation technique and inputs used:

		Fair Value Hierarchy		
Description	Note	Level	Valuation Technique	Inputs Used
Borrowings	23	2	Income approach using discounted cash flow methodology	Current Treasury borrowing rates for similar instruments

### (6). Highest and best use

All of Council's non financial assets are considered to being utilised for their highest and best use.

### (7). Fair Value Sensitivity to Unobservable Inputs

Relationship between asset consumption rating scale and the level of consumed service potential.
