SUMMARY

For Council to note the City's Local Homelessness Strategy community engagement outcomes, as presented in **Attachment 1** to this report. The outcomes will be used to inform the development of the City's draft Local Homelessness implementation plan due to be presented to Councillors and the Local Homelessness Advisory Committee at a joint briefing in March 2021.

OFFICER'S RECOMMENDATION

That Council:

1. Notes the Local Homelessness Strategy community engagement outcomes as contained in Attachment 1 to this report.
2. Notes that the draft Local Homelessness Strategy implementation plan will be presented to Councillors and the Local Homelessness Advisory Committee at a joint briefing in March 2021.

BACKGROUND

At the Ordinary Council Meeting on 27 October 2020, Council resolved the following:

*"That Council endorse the updated Local Homelessness Strategy project timeframe and key community engagement activities, as detailed in **Attachment 1** to this report for the final strategy to be presented to Council for adoption by no later than July 2021".*

In accordance with the project timeframe endorsed by Council on 27 October 2020, community engagement activities were facilitated throughout November and December 2020 and a summary of these are contained in **Attachment 1** to this report.

EXTERNAL CONSULTATION

Local Homelessness Advisory Committee

The City's Local Homelessness Advisory Committee were consulted regarding the community engagement activities planned to inform the City's Local Homelessness Strategy. At its first meeting on 22 October 2020, the Committee provided valuable feedback such as the facilitation of focus groups with persons with lived experiences within the City. Committee members also participated in the Community Engagement Workshop held on 10 December 2020.

Shelter WA

Shelter WA is the state's independent peak body that advocates for social and affordable housing, and ending homelessness. Shelter WA's vision is that All people living in Western Australia have housing that enables them to thrive. Shelter WA were consulted to inform the City's engagement activities and to facilitate the City's Community Engagement Workshop on 10 December 2020, at the City's Civic Centre. Shelter WA have also been instrumental in summarising the City's community engagement activities and key findings, as contained in **Attachment 1**. These community engagement findings will inform the development of the City's draft Local Homelessness Strategy implementation plan.

Focus Groups – Persons with lived experience of homelessness

Two separate focus groups were held with persons with lived experience of homelessness at Orana House and 55 Central on 24 and 27 November 2020 respectively. Valuable feedback on personal experience within the City of Bayswater was captured to inform the City's draft Local Homelessness Strategy. The comments captured at these two focus groups are also contained within **Attachment 1**, pages 63 – 68.

Community Engagement Workshop – December 2020

The City held a community engagement workshop on 10 December 2020 with key stakeholders at the Civic Centre. The workshop was facilitated by Shelter WA, with the assistance of Aha! Consulting. Workshop attendees included Councillors, City staff and representatives from:

- Western Australia Local Government Association (WALGA)
- 55 Central, Uniting Way WA
- Northern Suburbs Legal Centre
- Mission Australia
- Access Housing
- Ruah Community Services
- Foundation Housing
- Silverchain
- St Vincent De Paul
- Services Australia
- Morley Senior Highs School
- Perth Homelessness Support Group
- WA Primary Health Alliance
- Holy Trinity Church.

The purpose of the workshop was to engage with service providers within the City of Bayswater to inform the development of the draft Local Homelessness Strategy.

OFFICER'S COMMENTS

The intention of the City's draft Local Homelessness Strategy, as resolved by Council, is to ensure the Strategy addresses how the City can best meet the needs of those who may experience homelessness and detail actions that the City can implement to prevent homelessness in the district.

The Local Homelessness Strategy community engagement outcomes, as presented in **Attachment 1** are a summary of the engagement activities listed in the External Consultation section of this report.

The Local Homelessness Strategy community engagement outcomes highlight four emerging themes, which were explored at the community engagement workshop held on 10 December 2020. The themes are:

1. Preventing Homelessness
2. Keeping People Safe Who are Homeless
3. Exiting Homelessness
4. System Capacity

Within **Attachment 1**, there are a number of proposed strategies from the 10 December 2020 community engagement workshop and comments made under each of these that will assist the City to articulate actions for its draft Local Homelessness Strategy implementation plan.

As the City does not provide direct homelessness services to the community, it is envisaged that the City's role for implementing strategies and actions within its upcoming draft Local Homelessness Strategy will vary from being a facilitator, advocate and partner largely focussing on supporting local service providers in building community capacity to better respond to people experiencing homelessness in our City.

Through leadership, an important outcome for the City in its draft Local Homelessness Strategy will be to build a compassionate community who know how to respond and show empathy to people experiencing homelessness, with the ultimate aim being an end to homelessness within the City of Bayswater.

LEGISLATIVE COMPLIANCE

Not applicable.

Workshop Attendees and Program

Appendix One is a list of the attendees and apologies for the Local Homelessness Community Engagement Workshop. Appendix Two outlines the workshop program.

Welcome and introductions

Karen Quigley, Manager Community Development at the City of Bayswater gave an acknowledgement of country. Ms Quigley provided an overview of the Local Homelessness Advisory Committee (LHAC). Workshop attendees introduced themselves and their services and what they hoped to achieve from the workshop. It was noted at the end of the workshop that there was no attendance by staff from the Department of Communities whilst acknowledging it is difficult for the Department to liaise with every local government.

Presentations

Setting the Scene – Why are People Homeless

Michelle Mackenzie, CEO of Shelter WA gave an overview of why people are homeless in WA. This is contained in Appendix One. Ms Mackenzie outlined the following key points in her presentation:

- There are different types of homelessness – rough sleeping, couch surfing, overcrowding.
- Good strategy understands the types of homelessness in an area.
- Homelessness is a structural issue – the lack of social and affordable homes contributes to homelessness.
- Individual factors do impact on homelessness.
- The drivers of homelessness change over the course of people's life.
- 80 per cent of people who are homeless are poor and need a home and a living income to end their homelessness.
- We know what is needed to end homelessness – a Housing First approach a permanent home and tailored supports to stay in the home.
- We need to shift from managing homelessness to ending homelessness with the right investment in housing and services to do this.

Review of Past Action - What has the City done to date

Michele Fletcher, Co-ordinator Community Development gave an overview of the what the City has done to date. This is contained in Appendix Two. Key points in the presentation.

- City of Bayswater homelessness statistics presented.
- Focused conversations were held with people with lived experience of homelessness undertaken at the recommendation of the Local Homelessness Advisory Committee.
- An overview of City actions was provided.
- Ms Fletcher outlined how these align with the role of local government as outlined in All Paths Lead to a Home: Western Australia's 10-Year Strategy on Homelessness 2020–2030 <https://www.communities.wa.gov.au/strategies/homelessness-strategy>.
- The themes arising for consideration in the homelessness strategy are Family and Domestic Violence, Mental Health and Housing.

All Paths Lead to a Home¹ - the role of local government

The following is an extract from All Paths Lead to a Home Western Australia's 10-Year Strategy on Homelessness 2020–2030 that outlines the role of local government which Ms Fletcher referred to and is for useful in considering what the City of Bayswater could progress in its homelessness strategy.

Local Government

Local governments vary significantly in terms of size, rate payer base and the nature of issues in the local government area. In some regions, local governments are directly involved in the provision of homelessness services and accommodation services.

All local government authorities are well positioned, and some are adept, at facilitating local partnerships and coordinating place-based responses to homelessness in their community. They have crucial local knowledge and a key role in local planning decisions.

Local governments have frontline workers, including rangers, library staff and customer service officers who interact with and provide assistance to people who are at risk of, or experiencing homelessness.

Although these workers may not necessarily have the specialist skills required to address the complex issues people experiencing homelessness face, there is an opportunity for the interaction with frontline workers to be a key point of referral to local homelessness and accommodation services. They can provide information to assist people to access State and Commonwealth funded services through local libraries, for example, which are often frequented by vulnerable people seeking a safe place to access the internet and use facilities.

Local governments know their locally based community or communities. They have an integral role in identifying people who are sleeping rough or experiencing other forms of homelessness and facilitating connections to help and support through information.

The knowledge of place that sits with local government can be better used to inform resourcing decisions by State Government and to create places that are safe for people experiencing homelessness.

Local government authorities can contribute to the vision of the Strategy in the following ways:

- Making information on local services and supports available and accessible.
- Ensuring Rangers and front-line staff are informed and supported to interact with people experiencing homelessness and, where appropriate, refer them to local services.
- Working with Police to support and refer people experiencing homelessness to local services and supports.
- Coordinating volunteer and charity groups through a place-based approach that better meets the needs of people experiencing homelessness.

¹ <https://www.communities.wa.gov.au/strategies/homelessness-strategy/> p19

- Utilising land and assets to create places that are inclusive and can support vulnerable people.

Ms Fletcher advised the workshop that a Videographer was present at the workshop to conduct interviews with guests which would be useful in the development of the strategy. Ms. Fletcher also gave an overview of the key themes that arose from discussions with people with lived experience of homelessness.

Desired Outcomes from the Strategy

Attendees were grouped across a number of tables. Each group was asked to consider the outcomes that they would like to see under the three pillars of Family and Domestic Violence; Housing; and Mental Health that had been determined by the Local Homelessness Advisory Committee. The following is the responses from each table.

Attendee responses

Development of Strategies

Discussions were held by attendees on reframing the three pillars and there was consensus, and agreement by the City representatives that the pillars for the strategy be changed to:

1. Preventing Homelessness
2. Keeping People Safe Who are Homeless
3. Exiting Homelessness
4. System capacity

Tables were asked to reframe their outcomes and any strategies / actions they had developed within these three pillars.

Local Government and Homelessness

The next stage of the workshop was to develop strategies and actions based around the agreed pillars for the homelessness strategy. Prior to the development of strategies and actions, Ms Mackenzie gave a brief overview of how different local governments across Australia are considering homelessness, not just within their community development functions, but across all their functional areas. Ms Mackenzie showed that the actions that local governments have undertaken are diverse in line with local need and include:

- Council Policy Position
- Homelessness interagency group
- Regional / Local Homelessness Strategy
- Local law review
- Rate exemptions for homelessness /housing service providers
- Staff protocols and frontline staff training
- Referral service to providers
- Fund NGO services – ie outreach
- Provide underutilised land for social / affordable housing
- Differential rates for vacant properties
- Service brochures
- Urban Planning - Local housing strategies – increase diverse, affordable supply
- Planning incentives to increase social / affordable supply
- Advocacy for services

Ms Mackenzie also discussed how the Integrated Planning and Reporting Frameworks required of local governments in Western Australia could be used to embed a whole of Council homelessness response. This could include consideration within:

- Community Plans
- Public Health Plan
- Urban planning – scheme, policies and strategies

Local Government specific role/tools

Prior to this presentation, one table put together thoughts on a specific role / focus for local government. This included the following information:

- Rates policy and practices
- Awareness and information

Council

- Lobby Government and influencing other local government authorities
- Support services - bring together / rate relief / Info
- People in the community – info, set tone, awareness raising

This table also wrote the following quote:

“Homelessness is about many different things for many different people, but for everyone homelessness is always about one thing – it is about housing.”

Strategies around four pillars

The following are the strategies that were developed for each of the pillars and actions identified for the homelessness strategy. Workshop participants were asked to consider how they could work with the City to bring the strategy to life through access to information, research and know how (heads), access to networks/advocacy/champion (hearts), help making it happen/delivering (Hands) and access to grants/funding or other financial supports (hard cash). The following is the outcome of this component of the workshop.

Preventing Homelessness in all its forms

1. Strategy: Libraries are the Light (consistent easy access to information on support and services)
Actions <ul style="list-style-type: none"> Libraries are community resource centres Information and advice One Stop Shop Older People's right / elder abuse

Backbone for the WA Alliance to
End Homelessness

Why housing?

- Basic human right
- Fundamental to health and safety
- Facilitates stability & social inclusion
- Unlocks education & employment opportunities
- Contributes to a productive economy
- Public value benefit

What is Homelessness?

Homelessness is experienced when a person does not have a home in which you have shelter, can exercise control over a physical area, can maintain privacy and enjoy social relations and have legal title through tenancy rights or ownership. It includes:

- rough sleeping
- stays in supported accommodation for the homeless
- couch surfing
- living in boarding and rooming houses without private facilities and security of tenure
- heavy reliance on short-term stays in motels, hotels and other forms of temporary lodging

Chronic homelessness is continuous homelessness for 1 year or more, or 4+ episodes of homelessness in the last 3 years where the combined length of time homeless on those occasions is at least 12 months.

Imagine if...

We can end homelessness in Western Australia

By 2028, an individual of family will stay in an emergency shelter or sleep outside for no longer than one week before moving into a safe, decent, affordable home with the support needed to sustain it.

Our goal is within reach.

Housing - Fundamental to Ending Homelessness

Affordable Housing

- Rule of thumb, housing is considered affordable if it costs no more than 30% of gross household income for people on very low, low and moderate incomes (lowest 40%)

Social Housing

- Income eligible tenants: Public housing (State) and community housing (non government) – rent calculated as a percentage of income (25%)

Affordable Housing

- Narrow definition – rent is set at a proportion normally charged in the private market (75%)

Affordable housing levers

Demand side factors

Population & household size

Income and wealth

Tax rules

Residential investor demand & rental vacancy rates

Short term interest rate movements

House prices

Long term interest rate environment

Supply side factors

Land availability and zoning

Developer finance

Construction costs

Short term interest rate movements

Local Government Responses

Diverse responding to local need:

- Council Policy Position
- Homelessness interagency group
- Regional / Local Homelessness Strategy
- Local law review
- Rate exemptions for homelessness /housing service providers
- Staff protocols and frontline staff training
- Referral service to providers
- Fund NGO services – ie outreach
- Provide underutilised land for social / affordable housing
- Differential rates for vacant properties
- Service brochures
- Urban Planning - Local housing strategies – increase diverse, affordable supply
- Planning incentives to increase social / affordable supply
- Advocacy for services

Use of Local Government Planning Frameworks?

- Integrated Planning and Reporting Frameworks
- Community Plans
- Public Health Plan
- Urban planning – scheme, policies and strategies

Systemic approach and role for local government?

Understanding homelessness in the City

Stakeholder Concerns

- Lack of funding for many organisations – e.g. requires approx. \$250,000 to provide GP, nurse, van, equipment etc.
- Shopfront was providing 100 hampers per week at a cost of approximately \$40 per hamper leaving a gap in service
- Organisations have started requesting passports as ID – many people don't have a passport.

Understanding homelessness in the City

Stakeholder Concerns

- Nurses attend 55 Central – attend to 55's residents
- Accommodation a major issue – cannot get beds for homeless people. Beds are all taken by 11pm or earlier.
- Salvation Army operating with part-time staff providing est. 30 hampers per week.
- Financial counselling funding been cut drastically

Stakeholder Suggestions

- Very important for LG to work with and support providers.
- Suggested to investigate potential for areas to be re-purposed (empty properties, not vacant land) in CoB, available for pop up services.
- Food relief in CoB – some church communities have expressed interest to assist/participate
- Look into space around Bassendean / Bayswater / Maylands for people to go
- Food hampers – discussion about potential premises to enable service to at-risk people in the City.
- Need paid workers at organisations, not just volunteers
