

Additional Information

I believe local government is at its best when it puts people first our families, our businesses, our neighbourhoods, and the shared spaces we call home. My vision is built on trust, transparency, and accountability. Councillors must be accessible, listen carefully, and act with courage and fairness for all residents.

Our community is strong because of its diversity. From long-established families to new arrivals, from retirees to young parents, and from small businesses to community groups every voice matters. I stand for safer streets where families feel secure, cleaner and greener spaces for children to play, and housing that respects the unique character of our neighbourhoods. I believe in keeping rates fair while ensuring Council delivers real value & invests wisely in the future.

The devastating fire at the Morley Markets is a painful reminder of how fragile livelihoods can be. For decades, the Markets have been more than shops; they have been a heartbeat of Morley where people gathered, traded, and built connections. To those families who lost their businesses, I promise that, if elected, I will work with Council, local organisations, and State representatives to ensure they are not forgotten.

My career has taken me to four consecutive FIFA World Cups, working alongside top athletes, communities and across cultures from around the globe. Those experiences taught me how to manage challenges, unite people & deliver results under pressure. The same skills needed on the world stage - teamwork, vision, and resilience are the very skills needed here at home. Now, I am ready to bring that experience back to the Central ward and City of Bayswater.

Its important to continue to build a Council that is transparent, responsible, and focused on results that matter. With steady leadership and genuine care, I will always place our Central Ward community at the heart of every decision.

I respectfully ask for your vote so we can build a stronger future together.
