

Additional Information

A vote for Christie Langham is a vote for change.

I am 51 years old, married to Gustav, and we have a toddler named Nolan. Being committed to making positive changes for our residents is my priority.

I am a big fan of sports, and one of my goals is to improve our facilities. My husband enjoys playing pickleball at The Rise, and since this sport is quite popular, it's time to build a Pickleball Centre in our area. Enhancing our sports facilities will encourage more people to get involved in physical activities, promoting better overall health and fostering community engagement and inclusivity.

My son has swimming lessons at Bayswater Waves. While it is a great facility, I find it quite challenging to bathe and change him there because the building lacks a dedicated, spacious area specifically for children under five years old. Although there is a family bathroom and a change room, it's located outside the main building and can only accommodate one family at a time. Creating a designated area for young children would greatly benefit our families.

As a small business owner, I understand the challenges entrepreneurs face, and I am committed to building opportunities for them to thrive.

The safety of our children is also a top priority. I live near Peninsula Primary School and propose that we improve the traffic signage on our streets to prevent accidents and save lives.

I support community participation in our local government. If you're looking for transparency and commitment, I am your candidate.
