

Age Friendly Ambassador program

What is the Ambassador Program?

The award-winning Age Friendly Ambassador program was developed to ensure older community members are connected to information, programs and services, and have a voice on local community issues. The program empowers volunteers to become local leaders and information specialists within the City of Bayswater community.

The inaugural program was established in April 2019 and comprises eight volunteers from diverse backgrounds.

Why is the Ambassador Program important?

Who is best placed to become an Age Friendly Ambassador?

Age Friendly Ambassadors will have good community connections and may represent a special interest group, cultural group, club or diverse community. They will be passionate and knowledgeable about their local community and have an affinity to engage and support older adults.
